

## Testimony

Valérie Barrett

FOR WANDA K JONES

THANK TO YOU FOR READING MY TESTAMONY  
I AM FRENCH SO I HOPE I DID NT MAKE TO MAMY MISTAKES  
I YOU CAN UNDERSTAND EVERYTHING

Valérie Barrett

Le 13 of September 2010

Hi,

My name is Valérie, I am French, nobody is perfect. I ve got fibromyalgia and Ehlers Danlos syndrome, for a long time, to long, i also have dry syndrome, Raynaud syndrome, irritable bowel syndrome , Ashimoto hypothyroidie which made me lose 22 kg in 6 months , and i think its not logical, i suffer from hypothermy, hypoglycemy, and low blood pressure, i ‘ve got so many things , when i was in the hôpital for nearly one year and a half I had to stop the list of syndromes it was to long.

I created a blog to explaine the situation and it worked so well that people asked me to create a forum. In the research for my blog i found xmrV and WPI, and now for months i am the only one in France who talkes about the xmrV rétrovirus, i watched the 1st international workshop, and translated it to put it in my blog for everybody. I try a lot of times to informe the press and potilitics about it and the danger with blood donaters. In France Nothing been done to stop people giving their blood

I am in a wheel chair for 3 years now , i try to help people who are suffering and are desperate for help, i think i’ve got every thing to be the perfect exemple of what it is to have fibromyalgia or SFC, it’s the same here. I have been to 3 différents psy, to make sure i’m not depressed, and i am not. I am a very strong person who never lets go. I try every day to inform more people as possible about xmrV. Of course I am in pain, and it is very difficult when i have to ask my husband , to cut my meat, or to help me with the bath, and a lots of other things, before a was someone who never stop working, and did a lot of sports.

My wish is

If we can show to the world the truth about fibromyalgia and the relation with xmrV  
Iam ready, Iam not alone, a lot of people count on me, and want to join me they are in the same boat, and we are completely desperate to see than nothing moves here in France, we want to be tested for xmrV.

We are ready to try a traitement.

I am here, and i am hoping , what's the only thing left, WHEN YOU WANT WHERE YOU WANT

If I, or my group can participate to something.may be we can see the end of the tunnel we're in for so long.

THIS LETTER IS NOT JUST FOR ME BUT FOR ALL THE EUROPEEN PEOPLE WHO ARE LEFT ALONE WITH NO ANSWERS TREATED LIKE CREASY FOR TO LONG; THANKS TO YOU
