Office of Management and Budget
Washington, DC 20503

Dear Ms. Hunt:

As instructed in the OMB Data Call of September 16, 2005, we are electronically submitting to you the Fiscal Year 2005 Information Collection Budget (ICB) for the Department of Health and Human Services. The ICB includes all required information organized by Tabs, as follows:

- Tab 1 – Update on HHS Special Burden Reduction Project for FY 2005 – Last year the Department developed a new initiative titled, "Targeted Plan for Reduction among the Highest Burden Collections." This initiative identified 33 approved information collections in the Department that had at least one million hours of burden each, and that totaled 202 million hours or 73% of the Department's burden. The update shows significant reduction in the burden from these collections.
- Tab 2 - Information Collection Budget – This is a comprehensive accounting of information collection burden placed on the public in FY 2005 and planned in FY 2006. The accounting shows that in spite of burden reductions of 36 million hours for the targeted information collections, the HHS burden increased by over 283 million hours. Most of this (212 million hours) was caused by the information collection requirements in the Medicare Prescription Drug Program.
- Tab 3 – Examples of significant burden changes – As instructed, we have prepared a total of 83 short summaries for all changes over 10,000 burden hours, grouped according to type of program change in FY 2005 and FY 2006.
- Tab 4 - Compliance with the Paperwork Reduction Act of 1995 - The Department's report includes information on "violations due to lapse of OMB approval", and violations that are "existing collections without OMB approval (i.e., bootlegs)." HHS is reporting two violations due to lapse of OMB approval. This is a significant reduction in these types of violations (which for the last three years have ranged from 15 to 20). This reduction is primarily due to the new HHS electronic system for conducting the clearance function. The system is known as the Information Collection Request, Report and Approval System (ICRAS), which HHS has successfully expanded to OMB. The Department fully expects to eliminate all violations of this type in FY 2006. HHS is also reporting eight "bootlegs" violations. Seven of these violations have been resolved, and the Department is working closely with SAMHSA to resolve the remaining one.

As discussed above, HHS has not reduced burden in FY 2005 due to major new legislative requirements. However, the Department continues its efforts to reduce burden where possible by eliminating redundancy, redesigning forms and making better use of information technology.

This ICB covers all relevant activities throughout the Department. If there are questions regarding this submission, please contact Robert Polson at "robert.polson@hhs.gov" or at 202/690-6741.

Sincerely,

Charles Havekost
Chief Information Officer

Department of Health and Human Services Special Burden Reduction Project Update for FY 2006 ICB

Initiative Title: Targeted Plan for Reduction among Highest Burden Collections

Description:

As of September 30, 2004, HHS had 852 approved information collections that placed 277 million hours of burden on the public. Of these, 33 collections had at least one million hours of burden each, and in total accounted for 202 million hours of burden or 73% of the total HHS burden on the public. The remaining 819 collections account for only 27% of the Departmental burden. In light of these facts and in response to the OMB direction to achieve 1% reduction in burden, HHS implemented an initiative to achieve maximum possible burden reduction among these 33 largest collections located in three of the eleven HHS' Operating Divisions: CMS, FDA, and ACF.

Update for FY 2005:

Of the 33 Departmental programs with the highest burden, 10 had burden change for a net burden reduction of 33.1 million hours. The changes were as follows:

| <u>OPDIV</u> | <u>OMB Number</u> | <u>Change</u> | <u>Date</u> |
|--------------|-------------------|--------------------------|-------------|
| ACF | 0980-0140 | -48,492 (adjustment) | 10/22/2004 |
| CMS | 0938-0214 | 490,576 (program change) | 7/18/2005 |
| | - 0328 | 712,969 (adjustment) | 1/27/2005 |
| | - 0702 | -2,121,132 (adjustment) | 12/27/2004 |
| | - 0753 | -55,567 (adjustment) | 7/08/2005 |
| | - 0866 | -33,999,999 (adjustment) | 2/03/2005 |
| FDA | 0910-0001 | 388,553 (adjustment) | 5/19/2005 |
| | -0037 | 482,280 (adjustment) | 6/30/2005 |
| | -0442 | 616,855 (adjustment) | 4/29/2005 |
| | -0485 | 311,815 (adjustment) | 6/06/2005 |

The largest burden change was in a collection for the Center for Medicare and Medicaid Services (CMS), titled, "Information Collection Requirements in HIPAA Standards for Electronic Transactions". The reduction of 34 million burden hours was due to the completion of a one-time burden on the public. The only program change was also at CMS, titled, "Medicare Secondary Payer Information Collection and Supporting Regulations." This change was required by legislative action.

The Food and Drug Administration (FDA) has been a leader in the Federal Government in promoting the use of electronic transmissions by the public for the purpose of

providing information to the government. For example, FDA has an on-going effort to request that parts of NDAs be submitted in electronic format. This affects the FDA collection titled, "Applications for FDA Approval to Market a New Drug (NDA)", 0910-0001. Currently 80 % of NDAs and Abbreviated New Drug Applications (ANDA) have electronic components. This reduces burden by reducing the time needed to photocopy and mail these submissions. FDA expects these reductions to be evident in FY 2006.

In addition, in an effort to facilitate the registration and filing requirement for Low Acid Canned Foods Registration (0910-0037), FDA developed an electronic system to permit registration and filing over the Internet. FDA expects that this initiative will result in a significant decrease in the annual burden hours to the respondents. However, before these reductions are realized, FDA will need to absorb burden increases caused by expanding the program to 6,500 foreign firms.

Obstacles:

Although HHS had specific burden reductions of over 36 million hours in FY 2005, the HHS total burden increased by over 283 million hours. Most of this increase can be attributed to two legislative required programs: Health Insurance Reform (0938-0949) with 64.5 million hours, and the Medicare Prescription Drug Program (0938-0957) with 212 million hours. This increase illustrates that the major obstacle to burden reduction in the Department continues to be information requirements prescribed by statute and/or regulations. In order to reduce or eliminate these, changes to existing authorities would be required.

Future Plans:

In recognition of the impact of legislative mandates on burden reduction, the Department will be cautious in developing regulations, guidance, surveys, and forms that levy the least burden on the public possible. For all these collections of information, HHS requests review and comments from the public. The Department considers the merits of each comment received and includes changes suggested by commenters that are appropriate and do not harm the integrity of the information collection.

In addition to careful review of legislative and regulatory requirements, the Department will continue to promote where feasible the use of electronic reporting as discussed earlier with reference to FDA. Finally, the Department will continue efforts to improve the efficiency of information collections and reduce burden per response,

Agency: Department of Health and Human Services
OMB Control Number: 0990-0256
Title: Survey of SCHIP Enrollees and Disenrollees for the
Congressionally Mandated Evaluation of the State Children's
Health Insurance Program
Purpose of the collection: This information collection, part of the congressionally mandated
Evaluation of the SCHIP program will collect data about children
currently and previously covered by the program by conducting
surveys in 10 states.
How Reduction Achieved: Change in requirements
Change in Burden: -12,744
Does this change impact small entities with fewer than 25 employees? No

Cutting Redundancy:

Agency: Department of Health and Human Services
OMB Control Number: 0938-0679
Title: Durable Medicare Equipment Regional Carrier, Certificate of
Medical Necessity
Purpose of the Collection: For Medicare to consider item for coverage and payment.
How Reduction Achieved: In consolidating CMS form number 843(OMB 0938-0875),
844(OMB 0938-0679) and 850(OMB 0938-0679) into one unified
CMS form number 10116, the initial burden of processing and
reviewing three CMNs has now reduced by the use of a single
CMN.
Change in Burden: -315,000 hours
Does this change impact small entities with fewer than 25 employees? No

Changing Forms:

Other (2005)

Agency: Department of Health and Human Services
OMB Number: 0910-0555
Title: Presubmission Conference
Purpose of the Collection: The regulation establishes the procedures for requesting, conducting and documenting presubmission conferences. Presubmission conferences give FDA and a potential applicant a means to identify the least burdensome appropriate requirements that have a reasonable likelihood of resulting in approval.
Why Increase Occurred: New Collection
Change in Burden: 27,740
Does this change impact small entities with fewer than 25 employees? No

Agency: Department of Health and Human Services
OMB Number: 0910-0553
Title: Recommended Glossary and Educational Outreach to Support Use of Symbols on Labels and in Labeling of In Vitro Diagnostic Devices Intended for Professional Use
Purpose of the Collection: The purpose of this guidance is to help IVD manufacturers to create uniform labels and labeling for the United States and European Union (and any other countries that may permit use of symbols from these international standards), instead of needing designated labels for each marketplace. Because symbols take up less space than the text for which they may substitute, the use of symbols promotes less crowded and more legible IVD labels.
Why Increase Occurred: New collection.
