

Affordable Care Act 101

Conference Call Series

2012

The Patient Protection and Affordable Care Act

*Connecting Congregations and Communities
To The Care They Need*

"The stories of everyday Americans and, more importantly, the courage it took to share those stories is what kept this effort alive ..." -- President Obama

“Faith leaders are trusted partners in local communities. You have a unique ability to reach people, especially the most vulnerable, with the tools and information they need to get healthy, stay well, and thrive.”

***– HHS Secretary
Kathleen Sebelius***

Affordable Care Act

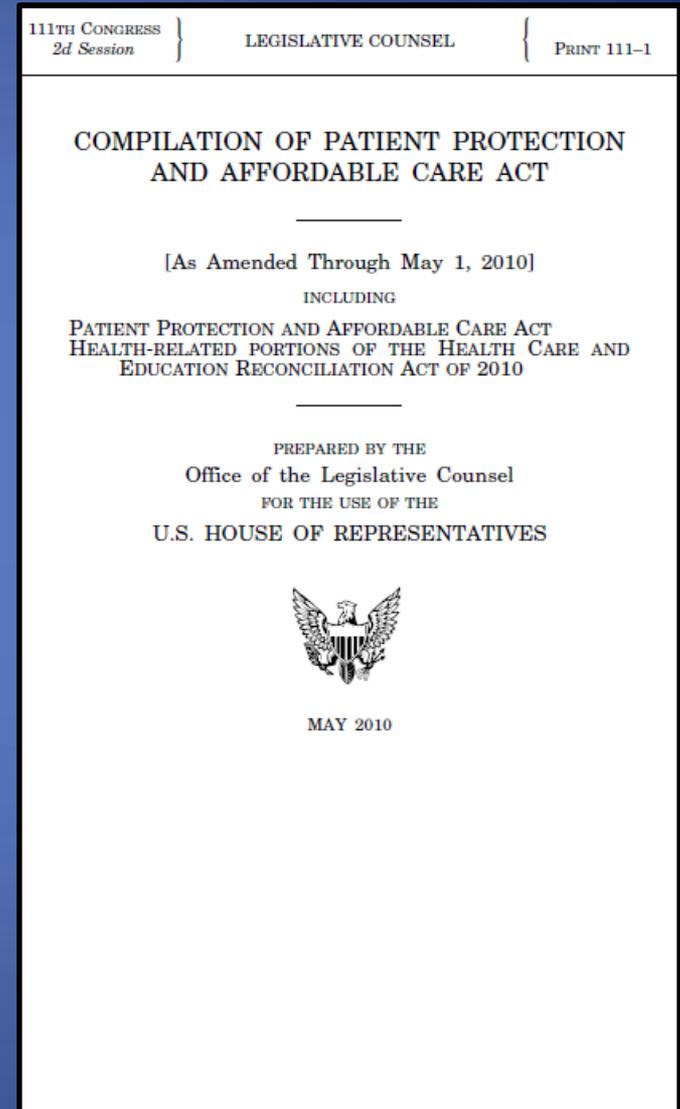

Signed into law on March 23, 2010

Public Law 111-148

Implemented incrementally

You can keep your insurance if you like it.
And people who have coverage, have better and more affordable, secure coverage.

More than 32 million people who would otherwise not have health insurance will have health coverage.

The Affordable Care Act: Some Major Themes

1. Expands Access to Care
2. Ends Abuses of Insurers
3. Makes Health Care More Affordable
4. Enhances the quality of Health Care

Expands Access to Care

People with pre-existing health conditions are eligible for the new **Pre-Existing Condition Insurance Plan (PCIP)**.

To be eligible, you must:

- Be a citizen or national of the United States or reside in the U.S. legally;
- Have been without health coverage for at least the last six months;
- Have a pre-existing condition.

Expands Access to Care

PCIP covers a broad range of health benefits, including primary, specialty and hospital care and prescription drugs.

PCIP does not charge you a higher premium just because of your medical condition. PCIP does not base eligibility on income.

www.pcip.gov

Expands Access to Care

People with low or no incomes will have greater access to care through an expanded network of community health centers. To find the center near you, go to <http://findahealthcenter.hrsa.gov>

People who live in a medically underserved areas will have access to more primary care health workers as a result of an expanded National Health Service Corps.

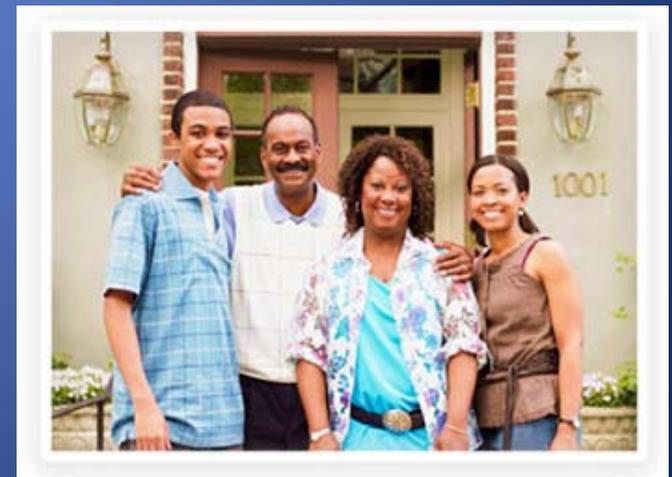

Expands Access to Care

People who live in rural communities will receive expanded services as a result of increased payments for rural health providers.

Youth can stay on their parent's health plan until they turn 26.

Ends Insurance Abuses

Insurers cannot cancel your coverage if you become sick because of an unintentional mistake on an application.

Insurers cannot cap the dollar amount they will pay in health care for a person over a lifetime.

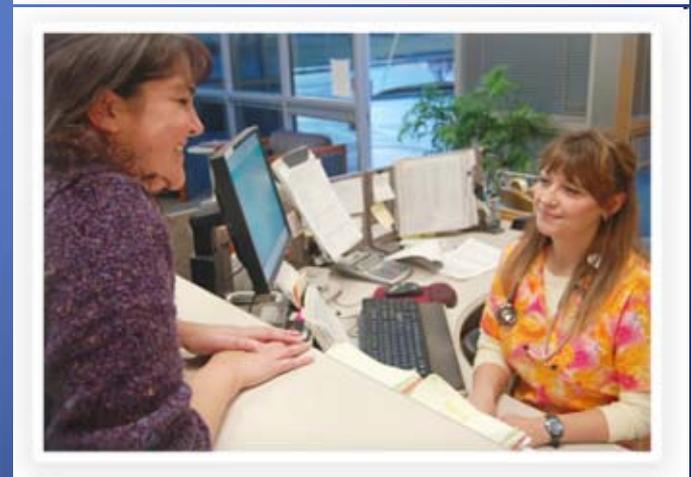

If insurers deny care or payment for services, consumers will have a new appeal process in new health plans.

Ends Insurance Abuses

States have new resources to thoroughly review large rate increases and crack down on premium hikes.

If you visit the **emergency room**, many insurance plans can't charge you more for emergency services obtained out of a plan's network.

Ends Insurance Abuses

Starting in 2014, **women will no longer be charged higher rates by insurance companies** due to gender or health status.

Also in 2014, you can no longer be discriminated against based on a pre-existing condition.

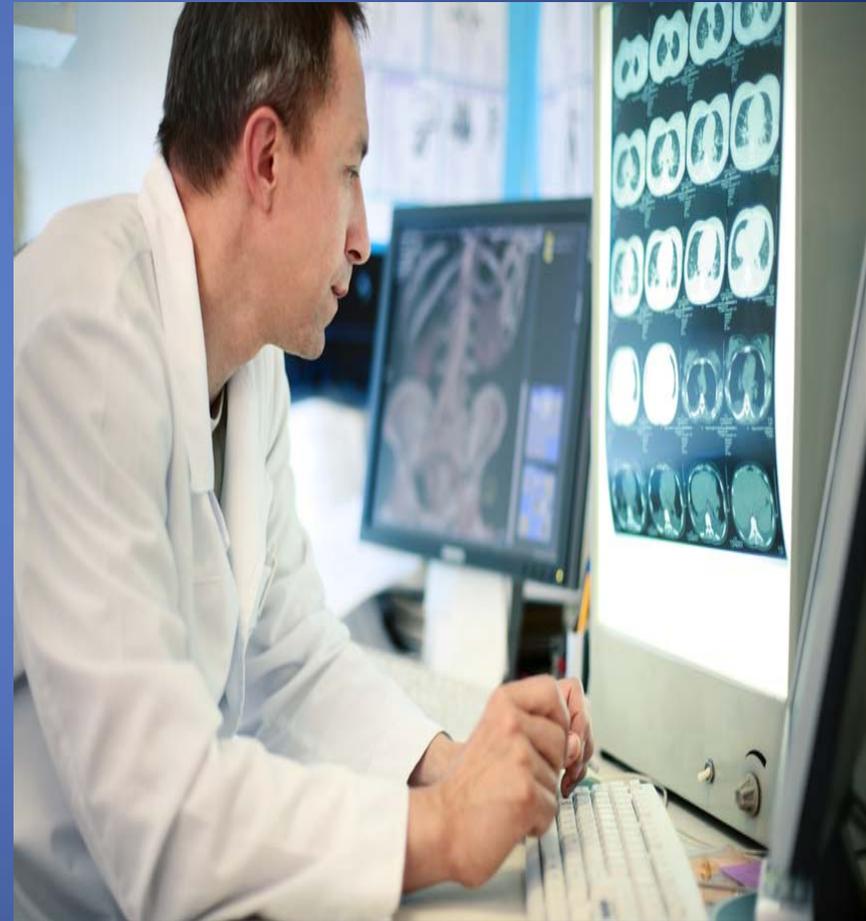

Makes Health Care More Affordable

Starting in 2014, Americans who earn less than 133 percent of the poverty level (approximately \$14,000 for an individual and \$29,000 for a family of four) **will be eligible to enroll in the Medicaid program.**

Makes Health Care More Affordable

All people without insurance can purchase affordable insurance through a State-based Health Insurance Exchange starting in 2014. Those with low and middle incomes can receive a tax credit to help pay for the coverage.

Makes Health Care More Affordable

In 2014, as a matter of fairness, the Affordable Care Act requires large employers to pay a shared responsibility fee only if they don't provide affordable coverage, and at least one of their employees is benefiting from premium tax credits.

Makes Health Care More Affordable

Small businesses that have fewer than 50 employees – 96% of all firms in the United States – are exempted from the employer responsibility requirement.

Makes Health Care More Affordable

If you have fewer than 25 employees and provide health insurance you may qualify for a **small business tax credit** of up to 35% (up to 25% for non-profits) to offset the cost of your insurance. This will make the cost of providing insurance much lower.

Makes Health Care More Affordable

As a result of the **Partnership for Patients**, consumers will receive better care, thus lowering costs. This new public-private partnership will save lives, prevent injuries, improve patient outcomes and will save billions of dollars.

Makes Health Care More Affordable

People in need of **long term supports and services** will have increased access to care in a home and community based setting rather than an institutional setting.

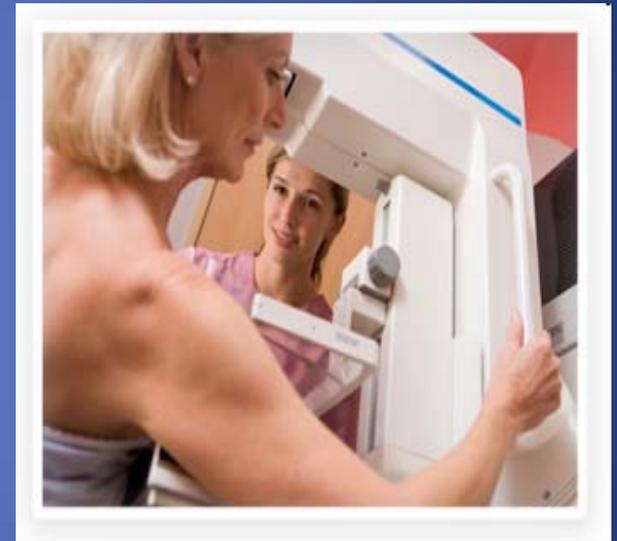

Small business owners receive tax credits to make health care coverage more affordable.

Makes Health Care More Affordable

Seniors and others with Medicare are receiving a 50 percent discount on covered, brand name prescription drugs and an 86 percent discount on generic drugs when in the donut hole. In 2020, the donut hole will be closed.

Seniors and others with Medicare are eligible for free preventive care such as annual wellness checkups and cancer screenings.

Makes Health Care More Affordable

In many plans, children and people with insurance are eligible for free preventive care, including wellness checkups, cancer screenings and vaccinations.

Consumers can compare plans and find the best value online at www.HealthCare.gov.

New State-based consumer assistance programs help consumers navigate the private health insurance system.

Makes Health Care More Affordable

The Children's Health Insurance Program (CHIP) provides **free or low-cost health coverage for more than 7 million children up to age 19**. CHIP covers U.S. citizens and eligible immigrants.

In general, **children in families with incomes up to \$44,100/year (for a family of four)** are likely to be eligible for coverage. In many states, families can have higher incomes and their children can still qualify.

Enhances Quality

The Affordable Care Act is designed not just to control health care costs, but also to improve quality of care.

There are **several tools that allow you to compare a variety of quality measures of health care and service providers** at www.HealthCare.gov

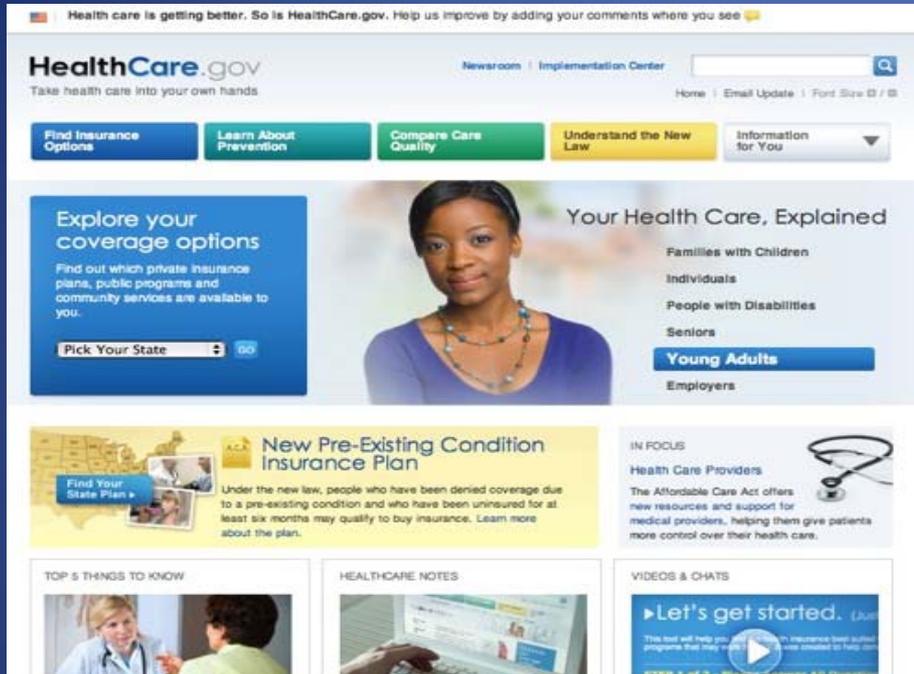

Health Care for the Most Vulnerable

The Affordable Care Act provides \$25 million in funds to States and community organizations to help pregnant and parenting teens and women gain access to health care, child care, family housing and other critical supports.

www.HealthCare.gov

The Affordable Care Act provides a first-of-its-kind website, www.HealthCare.gov, to help consumers make informed decisions about health care coverage by offering easy-to-understand information about what health plans are available in their state; how much they cost; what they cover, and lots more information tailored to your specific needs.

Launched July 1, 2010

HealthCare.gov –The website combines information about public programs, from Medicare to the new Pre-Existing Conditions Insurance Plan, with info (including pricing) from 1,000+ private plans.

▶ OK. Based on your choices, there are **6 options** you should look into:

Explore these options:

- 1. Coverage for Young Adults Under Age 26** [Learn More](#)

If your parent's insurance offers dependent coverage, you may be eligible to be covered on their policy until age 26.
- 2. Health Insurance Through Work** [Learn More](#)

You may be eligible for coverage through work – your job or your spouse's.
- 3. Health Insurance Plans for Individuals & Families** [Learn More](#)

If you do not have job-based or other coverage, you may want to buy a policy from a private insurer.
- 4. Pre-Existing Condition Insurance Plan (PCIP)/High Risk Pool** [Learn More](#)

You may qualify for a pre-existing condition insurance plan or a high risk pool, which helps people who have a hard time getting insurance find coverage.
- 5. Medicaid** [Learn More](#)

Medicaid provides coverage for low income children, families, the elderly, and people with disabilities. Pregnant women may qualify with higher incomes.
- 6. Finding Care You Can Afford** [Learn More](#)

There may be local facilities that provide free or reduced-cost care, whether you're insured or not. What you pay depends on your income.

IMPROVING QUALITY AND LOWERING COSTS

Improving Health Care Quality and Efficiency

Effective no later than January 1, 2011

The law establishes a new Center for Medicare & Medicaid Innovation that will begin testing new ways of delivering care to patients. These new methods are expected to improve the quality of care and reduce the rate of growth in costs for Medicare, Medicaid, and the Children's Health Insurance Program (CHIP). By January 1, 2011, HHS will submit a national strategy for quality improvement in health care, including these programs.
