

Barry R. Goldspiel, R.Ph.
National Institutes of Health
Projects Coordinator Pharmacist

U.S. Public Health Service George F. Archambault Award Career Achievement in
Pharmacy

Dr. Goldspiel's influence on pharmacy practice is clearly recognized at local, national, and international levels. He has a demonstrated record for developing systems to improve cancer patient care. As an oncology clinical pharmacy specialist, Dr. Goldspiel was responsible for assuring optimal pharmaceutical care to patients receiving highly toxic approved and investigational antineoplastic agents. In his present position, he has provided clinical pharmacist coverage on a new Solid Organ Transplant Pharmacist unit and on the Bone Marrow Transplant team. He serves as chair of the Chemotherapy Errors Reductions Task Force where he spearheaded the effort to develop an institution-wide chemotherapy prescribing policy.

Dr. Goldspiel is an excellent role model for oncology pharmacy practitioners and his sustained contributions and innovative ideas have improved patient outcomes, provided safe and cost-effective therapy, and has brought worldwide attention to PHS Pharmacy. Dr. Goldspiel is awarded the U.S. Public Health Service George F. Archambault Award Career Achievement in Pharmacy for sustained contributions to improving cancer patient care and oncology pharmacy practices.
