

## Activity 2: Measuring Success of Your Program or Service

Instructions: Complete this activity to help you identify the indicators or measures you will use to determine whether your program or service has been successfully sustained. The areas listed below refer to many of the factors of sustainability discussed in this guide, but also allow you to consider your measures of success more expansively. You may want to refer to the examples in Figure 1 to help guide your thinking or approach. Activities throughout the module will help you build your sustainability plan and ensure it meshes with the success measures you have identified in this activity. Some may find it useful to complete this exercise before going through each section of this guide to help identify goals and objectives in planning for sustainability. Others may prefer to complete this exercise later in the process. It will be up to you to determine when it makes sense for you to complete this activity.
