Activity 1: Assessing the Integration of Program Services

Instructions: Answer the following questions to better determine how well your services or programs are integrated into the community fabric. Use your answers to discuss with your leadership team and community partners ways in which you might better integrate your work.

How are your programs or services being utilized within your community?

What opportunities are available to better infuse your programs or services into established organizations, such as school systems, community health promotion programs, etc.?

What key linkages are needed to increase the relevance of your programs or services to the communities you serve?

How can you leverage resources, such as supplies, materials, and equipment, from larger community efforts to continue implementing your program or services?
