

## CENTER FOR MEDICARE

---

**DATE:** November 15, 2019

**TO:** Medicare Advantage Compliance Officers

**FROM:** Amy Lerrick Chavez-Valdez  
Director, Medicare Drug Benefit and C & D Data Group

**SUBJECT:** 2021 Quality Bonus Payment Determinations and Administrative Review Process for Quality Bonus Payments and Rebate Retention Allowances

### **Background**

The Affordable Care Act of 2010 amended sections 1853(n) and 1853(o) of the Act<sup>1</sup> to require CMS to make quality bonus payments (QBPs) to Medicare Advantage (MA) organizations that achieve at least 4 stars in a 5-star quality rating system. The Affordable Care Act also amended section 1854(b)(1)(C) of the Act to change the share of savings that MA organizations must provide to enrollees as the beneficiary rebate, mandating that the level of rebate is tied to the level of an MA organization's QBP rating. As a result, beginning in 2012, quality as measured by the Star Ratings directly affected the monthly payment amount MA organizations receive from CMS.

Under 42 C.F.R. § 422.260, CMS has made an administrative review process available to MA organizations for payment determinations based on the quality bonuses. The 2021 QBP appeals process starts November 15, 2019 with the posting of the preliminary QBP ratings in HPMS. MA organizations may request an administrative review of their Star Ratings for QBP determinations and rebate retention allowances. The following explains the process for requesting a review of these ratings.

### **Star Ratings to be Used for QBP Determinations**

The Star Ratings for the 2021 QBP determinations are the Star Ratings released October 2019 on the Medicare Plan Finder (MPF) tool at <http://www.medicare.gov> for those contracts that had enough data to calculate an overall rating.

The methodology for determining the Star Ratings is described in the Medicare 2020 Part C & D Star Ratings Technical Notes. With the release of the Star Ratings on the MPF tool, the data were also posted at <http://go.cms.gov/partcanddstarratings>

---

<sup>1</sup> References to “the Act” are to the Social Security Act.

Only MA organizations are included in the QBP ratings. The MA organization types are:

Organization Type	Offers Part D
Employer/Union Only Direct Contract Local CCP	✓
Employer/Union Only Direct Contract PFFS	✓
Local CCP	✓
MSA	
PFFS	✓*
Regional CCP	✓
RFB Local CCP	✓
RFB PFFS	✓

\* PFFS are not required to offer drug benefits.

## QBP Rating Rules

For contracts that receive a numeric Star Rating, the QBP rating is the highest rating as defined at § 422.162 and is assigned as follows:

- For MA contracts that offer Part D, the QBP rating is the numeric overall Star Rating.
- For MA contracts that do not offer Part D (MA-only, MSA, and some PFFS contracts), the QBP rating is the numeric Part C summary rating.

For contracts that did not have a numeric Star Rating, the QBP rating is determined based on whether the contract is a new MA plan or low enrollment contract, as defined in 42 C.F.R. § 422.252. The message the contract received on MPF is specific to the type of contract:

- Contracts with the message “Not enough data available” on MPF are considered low enrollment contracts for assignment of the QBP rating.
- Contracts with the message “Plan too new to be measured” on MPF are considered new contracts for assignment of the QBP rating.

Low enrollment contracts are those that have been in existence long enough (prior to 1/1/2018) to receive a Star Rating but do not have enough enrollment to reliably report Healthcare Effectiveness Data and Information Set (HEDIS) and Health Outcomes Survey (HOS) data. Contracts with 500 or more enrollees as of July 2018 are included in the 2020 Star Ratings on MPF, and these ratings will be used for 2021 QBPs.

New contracts for the 2021 QBP ratings are contracts with an effective date after 1/1/2018. The following rules are used to assign QBP ratings for a new contract; these were first adopted in the 2012 Advance Notice and Rate Announcement.

For the 2021 QBPs, for any new contract(s) under an existing parent organization, we apply the following rule:

- (i) We identify the parent organization of the new contract in November 2019.
- (ii) For preliminary QBP ratings, we identify the MA contracts held by that parent organization in November 2019. We use the numeric Star Ratings for those MA contracts that are held by the parent organization in November 2019 that we anticipate will still be in existence and held by that parent organization in April 2020.

- (iii) Using the enrollment in those other MA contracts as of November 2019, we calculate the enrollment-weighted average of the highest Star Rating(s) of those MA contracts.
- (iv) In April 2020, we update the enrollment-weighted average rating to take into account any changes to the parent organization of the existing contracts; this includes the ratings of any contract(s) that the parent organization acquired since November 2019. The updated enrollment-weighted average rating continues to use the November 2019 enrollment in the contracts held by the parent organization in April 2020. This updated rating is used as the 2021 QBP rating for the new MA contract(s) for payment in 2021. This final QBP rating will be released to the MA organization for the new contract(s) in April of 2020.

For any new contract(s) under a parent organization that has no MA contracts in November 2019, we apply the following rule:

- (i) We identify the MA contracts held by that parent organization in November 2018. If the parent organization had other MA contracts in November 2018, we use the numeric Star Ratings issued in October 2018 for those MA contracts that were held by the parent organization in November 2018.
- (ii) Using the enrollment in those other MA contracts as of November 2018, we calculate the enrollment-weighted average of the highest Star Rating(s) of those MA contracts.
- (iii) This enrollment-weighted average is used as the 2021 QBP rating for the new MA contract(s) for that parent organization for payment in 2021. This final QBP rating will be released to the MA organization for the new contract(s) in April of 2020.

For any new contract(s) under a parent organization that has no MA contracts in November 2018 and 2019, we apply the following rule:

- (i) We identify the MA contracts held by that parent organization in November 2017. If the parent organization had other MA contracts in November 2017, we use the numeric Star Ratings issued in October 2017 for those MA contracts that were held by the parent organization in November 2017.
- (ii) Using the enrollment in those other MA contracts as of November 2017, we calculate the enrollment-weighted average of the highest Star Rating(s) of those MA contracts.
- (iii) This is used as the 2021 QBP rating for the new MA contract(s) for payment in 2021. This final QBP rating will be released to the MA organization for the new contract(s) in April of 2020.

If there were no MA contract(s) in the parent organization with numeric Star Ratings in the previous three years (i.e., November 2017, 2018 and 2019), the contract is rated as a new MA plan in accordance with § 422.258.

Any changes in a contract's parent organization that occur from the annual verification (due by March 15) will be reflected in the final QBP ratings released in April 2020. The same parent organization rules outlined above are applied to the contract using the new parent organization information. Once the QBP ratings are finalized in April 2020, no additional parent organization changes are possible for QBP purposes. The QBP rating is applied to each plan benefit package under the contract.

The enrollment used in the calculations is the contract enrollment in November of the year the Star Ratings are released. Since the 2020 Star Ratings were released in the fall of 2019, the November 2019 enrollment is used for both the preliminary 2021 QBP ratings (released in November 2019) and the final 2021 QBP ratings (released in April 2020). The enrollment data are posted publicly here: <http://www.cms.gov/Research-Statistics-Data-and-Systems/Statistics-Trends-and-Reports/MCRAAdvPartDEnrolData/index.html>.

Under 42 C.F.R. § 422.162(b)(3), in the case of contract consolidations involving two or more contracts for health or drug services of the same plan type under the same parent organization that are approved on or after January 1, 2020, CMS will update the QBP status of the surviving contract using the enrollment-weighted means of what would have been the QBP ratings of the surviving and consumed contracts based on contract enrollment in November 2019. The updates will be available in spring 2020 for bid submissions.

## **Viewing QBP Ratings**

All MA contracts with Star Ratings data (those with numeric Star Ratings and new contracts under existing parent organizations) should view their Star Ratings for QBP purposes in HPMS by selecting Quality and Performance in the navigation bar, then Performance Metrics, then Costs, then MA QBP Rating. Contracts should ensure that 2020 is selected on the “Select a Report Period” page and then click the Next button. Use the link at the top of the page to download the Request for Reconsideration form. QBP details for contracts without Star Ratings data (low enrollment contracts and new contracts under new parent organizations) were finalized in the 2020 Rate Notice published in April 2019. These contracts are not part of the appeals process since they have no data to appeal.

During the Star Ratings preview periods, MA organizations had the opportunity to raise questions about the calculation of the Star Ratings and the underlying data. CMS anticipates that issues addressed during the preview periods will reduce the number of MA organizations requesting an administrative review of QBP determinations. Note, however, that asking questions during the preview periods is not part of the formal appeals process.

## **Administrative Review Process for QBP Determinations**

Section 422.260 provides for a two-step administrative review process that includes a request for reconsideration and a request for an informal hearing on the record after an adverse reconsideration decision. Both steps are conducted at the contract level. The first step allows the MA organization to request a reconsideration of how its Star Rating was calculated and/or what data were included in the measure(s). If the MA organization is dissatisfied with CMS’s reconsideration decision, the contract may request an informal hearing to be conducted by a hearing officer designated by CMS.

## **Scope of an Administrative Review**

Under § 422.260(c)(3)(ii), an administrative review cannot be requested for the following: the methodology for calculating the Star Ratings (including the calculation of the overall Star Ratings), cut-off points for determining measure thresholds, the set of measures included in the Star Rating system, and the methodology for determining QBP determinations for low enrollment and new

plans. Therefore, requests for reconsideration and an informal hearing may be filed for QBP purposes only under a limited set of circumstances.

Permissible bases for requests for both types of reviews include a calculation error (miscalculation) or a data inaccuracy (incorrect data). A calculation error could impact the individual measure's value or the overall Star Rating. Requests should focus on issues that could result in increased star values, as increased measure values that result in the same Star Rating do not change an MA organization's QBP rating. MA organizations are reminded that administrative reviews for measures for which the organization already receives 5 stars will not result in an increase in an organization's QBP rating, and could result in the rating going down if a calculation error or data inaccuracy is identified.

If an MA organization believes the wrong set of data was used in a measure (i.e., wrong timeframe for the data or wrong measure selected), this is considered a calculation error. A request for review based on data inaccuracy may only be filed for a subset of measures. Attachment A includes information about whether a contract may request a review based on data inaccuracy (incorrect data) for each of the measures included in the Star Ratings. The contract may not request a review based on data inaccuracy for the following data sources:

- HEDIS measures since they were audited prior to submission to CMS;
- Measures based on beneficiary feedback, including data collected through CAHPS, HOS, and CTM;
- Plan-reported data, including SNP Care Management, Medication Therapy Management, Prescription Drug Event data, and Plan Finder pricing and pharmacy data;
- Measures where there is a data issue because the contract did not follow standard operating procedures (e.g., CTM data);
- Contract enrollment data from HPMS or MARx since CMS information is the system of record for enrollment; and
- Other federal data sources (e.g., FEMA).

**Note:** Before an MA organization requests an administrative review, it is important to consider that a change in data values for a measure may not necessarily change the Star Rating for that measure or the overall Star Rating for the contract. Since Star Ratings for a measure are based on cut points, a significant change in the data is usually required in order for a contract to move from a lower Star Rating to a higher one. Even if there is a change in the Star Rating for one or more measures, the contract's overall Star Rating may not change because the change to a single measure is not often significant enough to move it to the threshold for the next higher overall Star Rating. Please review the cut points for Part C and D measures in the Medicare 2020 Part C & D Star Ratings Technical Notes. This information will help an organization determine whether requesting an administrative review will be beneficial.

## **Request for Reconsideration**

As stated above, the administrative review is a two-step process that begins with a request for reconsideration. **This review is not intended to repeat the previous periods in giving contracts another opportunity to raise general questions about how CMS calculates the Star Ratings, nor is it intended to review how every measure was calculated.** Instead, this review affords an MA organization the opportunity to request review of specific measure values that may affect the calculation of the contract's QBP. The request for reconsideration must specify the given measure(s) in question and the basis for reconsideration. The alleged error could impact an individual measure's value or the overall Star Rating. The request must include the specific findings or issues with which the contract disagrees and the reason for the disagreement; we recommend including specific examples of the miscalculation and/or data inaccuracy if relevant. The request for reconsideration may include additional documentary evidence that the MA organization would like CMS to consider.

In conducting the reconsideration, the reconsideration official will review the QBP determination, the evidence and findings upon which it was based, and any other written evidence submitted by the organization or by CMS before the reconsideration determination is made. CMS will inform the MA organization of the reconsideration official's decision through electronic mail. The reconsideration official's decision is final and binding unless a request for an informal hearing is filed in accordance with the instructions provided with the reconsideration official's decision.

Request for a QBP reconsideration is made by completing **the Excel version of the form shown in Attachment A**, "Request for Reconsideration" available in HPMS by selecting Quality and Performance in the navigation bar, then Performance Metrics, then Costs, then MA QBP Rating. To complete the form, macros must be enabled in Excel. The contract must email the completed Excel form to [QBPAPPEALS@cms.hhs.gov](mailto:QBPAPPEALS@cms.hhs.gov) by **5:00 p.m. EST on December 3, 2019**. The file should include the contract number as part of the file name. A request for reconsideration must be submitted by the date and time above in order to reserve the right to later request an informal hearing.

## **Informal Hearing**

Instructions for requesting an informal hearing will be provided with the reconsideration decision. An informal hearing request may not be made unless a reconsideration was first requested and the decision sent to the MA organization. The informal hearing request must pertain only to the measure(s) and value(s) in question that precipitated the request for reconsideration. Requests must include a statement that describes the error(s) that the MA organization asserts CMS made in its QBP determination and how correction of those errors could result in the organization's qualification for a QBP or a higher QBP. The MA organization must provide clear and convincing evidence that CMS's calculations of the measure(s) and value(s) in question were incorrect; in other words, the burden is on the MA organization to prove an error was made in the calculation of the QBP.

CMS will attempt to complete all informal hearings by early April; however, decisions could be issued as late as May 15 of the year preceding the year in which the QBP is to be applied, especially in cases where the results of the informal hearing require a recalculation of star values for many contracts. CMS is aware a May 15 deadline is necessary to afford MA organizations time to

incorporate their QBP status into their plan bids, due by the first Monday in June. The hearing officer's decision is final and binding on both the MA organization and CMS.

### **Changes from the Administrative Review Process**

If the hearing officer's decision is in favor of the MA organization, relief would be recalculation of the MA organization's QBP. **Recalculation could cause the requesting MA organization's QBP to go higher or lower.** In some instances, the recalculation may not cause the Star Rating to rise above the cut-off for the higher QBP rating. When the reconsideration official or hearing officer's decision requires that a measure be systematically recalculated for all contracts, all other affected contracts (i.e., contracts of other MA organizations) would receive the recalculation if it results in a higher Star Rating, and any resulting changes would be made to the Star Ratings and QBPs for all affected contracts. Contracts' 2020 Star Ratings, which are used for 2021 QBPs, will not be decreased by CMS as a result of a systematic re-calculation; however, the issue will be addressed in the next year's Star Ratings.

Any questions regarding this memo may be submitted to [QBPAPPEALS@cms.hhs.gov](mailto:QBPAPPEALS@cms.hhs.gov).

*Please do not send messages requiring CMS to login to another site to access the questions or message content. If you need to share personally identifying information (PII) with us, please contact us with a regular email to discuss a safe way to transfer the secure data.*

## Attachment A

### Request for Reconsideration

**Note:** The QBP administrative review process is a two-step process that includes: 1) a request for reconsideration, and 2) a request for an informal hearing after CMS has rendered its reconsideration decision. Both steps are conducted at the contract level. This first step affords an MA organization the opportunity to request a reconsideration of how its Star Rating, for the given measure in question, was calculated. This is not an opportunity for an MA organization to question how every measure was calculated. A request for reconsideration must be submitted by the date and time specified below in order to reserve the right to later request an informal hearing on the record.

**Instructions:** Use only the "Request for Reconsideration" form that can be found in HPMS. To download a copy of the form from HPMS, select Quality and Performance on the home page, then Performance Metrics. On the Performance Metrics page select Costs and then MA QBP Rating. One form must be submitted for each contract for which reconsideration is requested. Each form may only be used for one contract. Complete the identifiable information including all contact information. **Please enable Macros in this form.** Mark an "X" next to the measure(s) that the MA organization is questioning and requesting reconsideration. In the "Description of the Issue" specify any errors that the MA organization asserts CMS may have made in calculating the contract's QBP determination. Save the information, please include your contract number in the filename, and e-mail the completed form along with any additional documentary evidence to be considered to QBPAPPEALS@cms.hhs.gov by the due date.

**Due Date:** A Request for Reconsideration of QBP is made by completing the Excel version of this form downloaded from HPMS and e-mailing the form to QBPAPPEALS@cms.hhs.gov by 5:00 p.m. EST on **December 3, 2019**. No late requests will be accepted.

D13 - MTM Program Completion Rate for CMR	Part D Plan Reporting		Not Appealable	
D14 - Statin Use in Persons with Diabetes (SUPD)	PDE data		Not Appealable	

Additional Comments (Please provide any additional information relevant to your request)

According to the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless it displays a valid OMB control number. The valid OMB control number for this information collection is 0938-1129 (Expires: 4/30/2021). The time required to complete this information collection is estimated to average 8 hours, including the time to review instructions, search existing data resources, gather the data needed, and complete and review the information collection. If you have comments concerning the accuracy of the time estimate(s) or suggestions for improving this form, please write to: CMS, 7500 Security Boulevard, Attn: PRA Reports Clearance Officer, Mail Stop C1-25-05, Baltimore, Maryland 21244-1850.
