ICD-10 Crosswalk for HHS-HCC

Fiscal Year 2016 Risk Adjustment Model

In an effort to prepare issuers for International Classification of Diseases, Tenth Revision (ICD-10) implementation on October 1, 2015, the Center for Customer Information and Insurance Oversight (CCIIO) has prepared a document to describe our approach to mapping ICD-10 codes to Hierarchical Condition Categories (HCCs) in the Department of Health and Human Services (HHS) Risk Adjustment (RA) model. Additionally, we are providing a draft crosswalk mapping of the ICD-10 Diagnosis Codes to HHS RA HCCs for stakeholder feedback. We are requesting feedback from issuers by August 31, 2015 at hshccraops@cms.hhs.gov.
