The information provided in this presentation is not intended to take the place of the statutes, regulations, and formal policy guidance that it is based upon. This material summarizes current policy and operations as of the date it was uploaded to REGTAP. Links to certain source documents may have been provided for your reference. We encourage persons taking the course to refer to the applicable statutes, regulations, and other interpretive materials for complete and current information

This communication was printed, published, or produced and disseminated at U.S. taxpayer expense.

Passive Cancels

Passive Cancels

- Will cancel passive reenrollments that duplicate active enrollments for future year Marketplace coverage.
- If enrollees or their assisters create a duplicate enrollment via a disconnected application, the Marketplace will cancel the passive enrollment
 - Delivery: 12/5, and 12/20 (previous deliveries 11/21 & 11/28).
 - EFT BARCN9 jobs (IPA layout)
- Note that issuers will find additional duplicate policies canceled on the 12/18 pre-audit file [see overlaps indicator in field 89 on the subscriber record (1 = within HIOS overlap; 2 = across-HIOS overlap); Cancel Source = 5; Application Origin = 11]
- Issuers that discover a passive enrollment that duplicates an active may alternatively send a IC834 cancel on the duplicate 2019 passive rather than waiting for the BARCN9 job

Carry Forward Cancells

- Will cancel auto-reenrollments that are subsequently ineligible for BAR due to late terminations of current year Marketplace coverage. Active reenrollments or auto-reenrollments that have been updated by the enrollee will NOT be cancelled in this job, though in some scenarios the issuer may still cancel the active reenrollment (see Exchange Enrollment Manual, Chapter 6)
- Carry Forward Cancells are delivered to issuers via EFT I834's with AMRC CANCEL-CARRYFORWARD
- Issuers will receive CANCEL-CARRYFORWARDS on or around 12/3 & 12/18

Carry Forward Change in Circumstance (CIC) – Delivery Dates

Change in Circumstance (CIC) Carry Forward:

- On November 22, 2018, the FFE updated BAR policies still in passive status (origin = 11) if the associated 2018 policy was updated after October BAR.

834 Information for CIC Carry Forward:

- **M834.** If the 2018 CIC was a candidate for 2019 maintenance (M834), the update to the 2019 BAR policy was sent via I834 with AMRCs corresponding to the change as specified by the M834 guide.
- **Not M834.** If the CIC was not a candidate for 2019 M834, the update is sent again via BAR (I834AR), and the original BAR policy is canceled with AMRC CANCEL-CARRYFORWARD, and the replacement BAR policy with AMRC CIC Initial.
- The next CIC Carry Forward is scheduled for today, Monday December 3, 2018.
