Looking Forward- 2019 BAR Reminders

- BAR Failures:
  - A very small list of enrollments delivered to impacted issuers that because of processing issues were not auto-renewed; impacted issuers are encouraged to do outreach to get the enrollees, who are flagged for SEPs at the Marketplace Call Center, to actively reenroll
  - Sent via EFT IOUTRC
  - Delivery in late December or early January
- Post-BAR Reinstatements:
  - A list of enrollments delivered to issuers where the 2018 coverage was reinstated by the issuer in Enrollment Data Alignment after 2019 BAR concluded and there is no apparent 2019 active reenrollment. These enrollees are flagged for 2019 SEPs at the Marketplace Call Center and issuers are encouraged to conduct voluntary outreach
  - Sent via EFT IOUTRC
  - Scheduled deliveries in first months of 2019

Missing Outbound Incremental Pre-Audit (MOIPA9) File Delivery

- MOIPA9
  - This file is a special Incremental Pre-Audit File that will contain full information for enrollment transactions that failed to convey to the Issuer via the standard EDI 834.
  - Delivery on: **12/10**
  - BAR policies created but not sent as 834s will also show up on a MOIPA9
- Passive Cancel & Overlap Clean-ups
  - Pre-audit Overlaps on 12/18 and BARCN9 file on 12/20 will cancel BAR policies that duplicate an active enrollment
