This material summarizes current policy and operations as of the date it was uploaded to REGTAP. Links to certain source documents may have been provided for your reference. We encourage persons taking the course to refer to the applicable statutes, regulations, and other interpretive materials for complete and current information.

Data Matching Issues (DMIs) Issuer Outreach Files Delivery

- On Friday, October 13, 2017, the Centers for Medicare and Medicaid Services (CMS) delivered DMI issuer outreach files for consumers who are at risk for Marketplace action in November, 2017, unless they successfully resolve their data matching issues.
- These enrollees are at risk of losing eligibility for a Quality Health Plan (QHP) or financial assistance at the end of November, with enrollee's eligibility adjusted effective December 1, 2017. Expiration "NLE" transactions will be sent during the first two weeks of November.

Note: Issuers should not update your systems with the information contained in the DMI files, instead 834 transactions from the FFM will be sent for issuers to adjust the coverage of impacted policies.
