Announcements

PCA

PCA

- PCA is an annual process that flags potential concerns with issuer data. We will contact issuers prior to the beginning of the plan year about concerns that are likely to affect consumers.
 - PCA reviews are conducted soon after certification of plans.
 - CMS will review Qualified Health Plans (QHPs), Stand-alone Dental Plans (SADPs), and Dual Issuers in the Individual and Small Business Health Options Program (SHOP) markets in FFE and State Partnership (SPE) states.

PCA (continued)

- We want as many potential issues as possible fixed before the first effective date of PY20 plans.
- In early December 2019, we will notify issuers with potential concerns by email.
- We expect concerns to be resolved by early January 2020.

PCA (continued)

- Not all issuers will receive a PCA email.
- We will notify state regulators in advance of sending PCA emails to issuers.
- CMS Account Managers will be copied on PCA emails.
- You will be able to view your potential concerns in the PM Issuer Community on Salesforce.

PCA (continued)

We will ask issuers to:

1. Investigate the concern(s) identified as a result of PCA reviews, and
2. Notify CMS of their findings and proposed resolution, if necessary. Resolution may require data changes.

PCA (continued)

- **Issuer responses and issuer questions go to different email addresses!**
 - Responses: QHP_Applications@cms.hhs.gov.
 - Questions: CMS_FEPS@cms.hhs.gov.
3. When a data correction is required, issuers must follow the standard data correction process, which may require state approval.

PCA (continued)

- Our largest reviews will cover:
 - Provider Directories,
 - Formularies,
 - Benefits Information and Designs,
 - Quality Improvement Strategies (QIS), and
- Within our review areas, we will mainly examine data integrity, public accessibility, and non-discrimination.
