1 Summary of Quarterly Release Modifications

The modifications of the IOCE for the **July 1, 2025, v26.2** release are summarized in the table below. Readers should also read through the entire document and note the highlighted sections, which indicate changes from the prior release of the software. Some IOCE modifications in the update may be retroactively added to prior releases. If so, the retroactive date appears in the 'Effective Date' column.

Item #	Type	Effective Date	Edits Affected	Modification
1.	Logic	7/1/2025	24	Modify the software to maintain 28 prior quarters (7 years) of programs in each release. Remove older versions with each release. The earliest date/version included for this release is 10/01/2018, v19.3 of the IOCE.
				Logic Changes:
2.	Logic	7/1/2025		Logic Implementation: Implement new payer only modifiers (#0 through #9 and #A through #Z) to automatically assign contractor bypass values for applicable lines. See Automation of Certain Contractor Bypasses for more information.
3.	Logic	7/1/2025		Logic Implementation: Implement new payer only value code Z8 (Bypass IOCE APC assignment for lines with payer-only modifier criteria). See Payer Only Value Code Z8 for Automated Contractor Bypassed lines for more information.
4.	Logic	1/1/2025		Logic Modification: Modified the FQHC Preventive service logic to include Drugs Covered as Additional Preventive Services (DCAPS) not packaged under FQHC PPS or subject to coinsurance. Additionally, these services do not require the reporting of an FQHC payment code. See Drugs Covered as Additional Preventive Services (DCAPS) for more information.
5.	Logic	10/1/2018	91	Logic Modification: The contractor bypass logic has been updated for the IOCE to treat Edit 91-related Line Item Action Flag (LIAF) = 5 output for FQHC claims the same as LIAF=0. This change ensures that Medicare Administrative Contractor (MAC) bypass input values are assigned as expected. Previously, the LIAF=5 output that the OCE applied to lines receiving Edit 91 would prevent these lines from contractor bypass processing.
6.	Logic	7/1/2025		Logic Implementation: Implement new Line Item Action Flag (LIAF) = 6 (FQHC/RHC Vaccine service) to identify Pneumococcal Pneumonia Virus, Influenza Virus, Hepatitis B Virus, COVID-19 vaccines, and their administrations for FQHC and RHC bill types 077x and 071x. For FQHC bill types, these services do not require reporting of an FQHC payment code. See Non-Packaged Preventive Services and RHC – Preventive Services for more information.
7.	Logic	1/1/2025	138	Logic Implementation: Non-Opioid Surgical Pain Relief Drug Payment Limitation • New Payment Adjustment Flag (PAF) 30 (First Non-opioid Drugs and Biologicals for Post-Surgical Pain Relief) to account for the first K1 drug subject to payment limitation. • New Payment Adjustment Flag (PAF) 31 (Second Non-opioid Drugs and Biologicals for Post-Surgical Pain Relief) to account for the second K1 drug subject to payment limitation. • New Payment Adjustment Flag (PAF) 32 (Third Non-opioid Drugs and Biologicals for Post-Surgical Pain Relief) to account for the third K1 drug subject to payment limitation. See Non-Opioid Pain Relief Drug Payment Limitation Processing for more information.
8.	Logic	1/1/2025	138	Logic Implementation: Created new information only, edit 138 (More than 3 non-opioid pain relief drugs reported). Disposition: Line Item Rejection
9.	Logic	1/1/2025		Logic Modification: Non-Opioid Surgical Pain Drug Payment Limitation • Modification of value code QR to include First APC pass-through drug or biological offset and First Non-opioid Drugs and Biologicals for Post-Surgical Pain Relief to account for the first K1 drug • Modification of value code QS to include Second APC pass-through drug or biological offset and Second Non-opioid Drugs and Biologicals for Post-Surgical Pain Relief to account for the second K1 drug • Modification of value code QT to include Third APC pass-through drug or biological offset and Third Non-opioid Drugs and Biologicals for Post-Surgical Pain Relief to account for the third K1 drug See Payer Value Codes for Pass-through Drugs and Biological Processing for more information.
10.	Logic	1/1/2025		Logic Correction: The logic for Non-Opioid Surgical Pain Relief Drugs or Biologicals is corrected to set Payment Method Flag = 2 for HCPCS codes with SI = K1. Note that the documentation, regarding setting the PMF, remains correct from the January (v26.0) release.
				Documentation Changes:
