Recurring Update Notification

Attachment - Recurring Update Notification

SUBJECT: Remittance Advice Remark Code (RARC), Claims Adjustment Reason Code (CARC), Medicare Remit Easy Print (MREP) and PC Print Update

EFFECTIVE DATE: October 1, 2025

*Unless otherwise specified, the effective date is the date of service.

IMPLEMENTATION DATE: October 6, 2025

I. SUMMARY OF CHANGES: The purpose of this Change Request (CR) is to update the RARC and CARC lists and to instruct the ViPS Medicare System (VMS) and the Fiscal Intermediary Shared System (FISS) to update the MREP and the PC Print. This Recurring Update Notification (RUN) applies to Chapter 22, Sections 40.5, 60.2, and 60.3 of Publication (Pub.) 100-04.

II. GENERAL INFORMATION

A. Background: The Health Insurance Portability and Accountability Act of 1996 (HIPAA) instructs health plans to be able to conduct standard electronic transactions adopted under HIPAA using valid standard codes. Medicare policy states that CARCs and RARCs, as appropriate, which provide either supplemental explanation for a monetary adjustment or policy information that generally applies to the monetary adjustment, are required in the remittance advice and coordination of benefits transactions.

The CMS instructs contractors to conduct updates based on the code update schedule that results in publication three times per year – around March 1, July 1, and November 1. The purpose of this CR is to update the RARC and CARC lists and to instruct the VMS and the FISS to update the MREP and the PC Print. This RUN applies to Chapter 22, Sections 40.5, 60.2, and 60.3 of Pub. 100-04.

The CMS provides this CR as a code update notification indicating when updates to CARC and RARC lists are made available on the official Accredited Standards Committee (ASC) X12 website. The Shared System Maintainers (SSMs) have the responsibility to implement code deactivation, making sure that any deactivated code is not used in original business messages and allowing the deactivated code in derivative messages. The SSMs must make sure that Medicare does not report any deactivated code on or after the effective date for deactivation as posted on the official ASC X12 website. If any new or modified code has an effective date later than the implementation date specified in this CR, contractors must implement on the date specified on the official ASC X12 website.

A discrepancy between the dates may arise, as the official ASC X12 website is only updated three times per year and may not match the CMS release schedule. For this recurring CR, the MACs and the SSMs must get the complete list for both CARC and RARC from the official ASC X12 website to obtain the comprehensive lists for both code sets and determine the changes that are included on the code list since the last code update CR (CR 13999).

B. Policy: HIPAA and 45 CFR Part 162
