Transmittal 13073 issued March 13, 2025, is being rescinded and replaced by Transmittal 13391, dated August 27, 2025, to update the implementation date, add new sub-requirements (BR) 13767.1.1.2 and BR 2.5 to establish hierarchy for the application of SNF edits and IURs. Additionally, the messaging in BR 13767.2.4 has been revised. All other information remains the same.

SUBJECT: Enhancing Compliance and Payment Accuracy for Physician Services in Skilled Nursing Facilities

I. SUMMARY OF CHANGES: The purpose of this Change Request (CR) is to instruct the Common Working File (CWF) to establish a system edit and an Informational Unsolicited Response (IUR) that identifies instances in which physicians incorrectly use Place of Service (POS) code 32, Nursing Facility (NF) or Skilled Nursing Facility (SNF) with no Part A coverage, while a beneficiary is in a covered Part A SNF stay.

EFFECTIVE DATE: July 1, 2025
Unless otherwise specified, the effective date is the date of service.
IMPLEMENTATION DATE: July 7, 2025; October 6, 2025 - for BRs 13767.1.1.2, 13767.2.4 and 13767.2.5

Disclaimer for manual changes only: The revision date and transmittal number apply only to red italicized material. Any other material was previously published and remains unchanged. I.   SUMMARY OF CHANGES: The purpose of this Change Request (CR) is to instruct the Common Working File (CWF) to establish a system edit and an Informational Unsolicited Response (IUR) that identifies instances in which physicians incorrectly use Place of Service (POS) code 32, Nursing Facility (NF) or Skilled Nursing Facility (SNF) with no Part A coverage, while a beneficiary is in a covered Part A SNF stay.

II.   GENERAL INFORMATION

A.   Background: Medicare pays practitioners separately for physician services, distinct from payments made to inpatient facilities (such as Skilled Nursing Facility (SNF) or hospital). Practitioners report a two-digit place-of-service (POS) code on Medicare claim lines, reflecting where the service was furnished. The Office of Inspector General's (OIG) analysis revealed that practitioners do not always follow the Centers for Medicare & Medicaid Services' (CMS) regulations and guidance when reporting the appropriate code for where they rendered services. This non-compliance increases the risk of Medicare making overpayments for physician services provided to inpatients of SNFs or hospitals. The primary issue is the incorrect use of POS codes. Practitioners sometimes apply the non-facility POS code 32 (indicating services were provided to a beneficiary in Nursing facility (NF) or during a non-covered SNF stay) when, in fact, the beneficiary was covered under Part A. The correct POS code to be used during a Part A stay in a SNF is POS code 31. This misclassification results in overpayments and undermines payment accuracy.

B.   Policy: POS codes are used to identify the setting in which a beneficiary receives a physicians' service. POS codes are two-digit codes placed on health care professional claims. The CMS currently maintains the National POS code set that is used throughout the health care industry. The National POS code set contains a series of individual codes that encompass the different settings in which beneficiaries receive care.

POS code 31 is used for services furnished in SNFs for beneficiaries with Part A coverage. Alternatively, POS code 32 is used for all services furnished in NFs, and for services furnished in SNFs when beneficiaries have exhausted their Part A coverage. For services furnished in facilities that includes both NF and SNF settings, also known as mixed facilities, POS code 31 is used unless the physician can verify that no Part A payment will be made for the service.

IV.   PROVIDER EDUCATION

Medicare Learning Network® (MLN): CMS will develop and release national provider education content and market it through the MLN Connects® newsletter shortly after we issue the CR. MACs shall link to relevant information on your website and follow IOM Pub. No. 100-09 Chapter 6, Section 50.2.4.1 for distributing the newsletter to providers. When you follow this manual section, you don't need to separately track and report MLN content releases. You may supplement with your local educational content after we release the newsletter.
