September 30, 2020

Dear Grantee,

In response to COVID-19, except as stated herein, ORR is extending the discretionary grant programmatic flexibilities authorized on April 28, 2020, through January 31, 2021. The only exception to the extension of the flexibilities in ORR's April 28 guidance is the process for Non-Competing Continuation (NCC) proposals, which was part of ACF wide flexibilities that have since been rescinded. For grantees who have relied or are planning to rely on the NCC proposal flexibility or any other ACF wide flexibility, please note that ACF wide flexibilities for grant processing have changed. Grantees should refer to the [ACF website](#) for updated information on those flexibilities.

If you have any questions or concerns, please contact the relevant ORR Program Specialist and ACF Grants Specialist.
