**SUBJECT: Calendar Year 2023 Update for Durable Medical Equipment, Prosthetics, Orthotics and Supplies (DMEPOS) Fee Schedule**

**I. SUMMARY OF CHANGES:** The purpose of this change request is to update, on a quarterly basis, the DMEPOS fee schedules, when necessary, in order to implement fee schedule amounts for new and existing codes, as applicable, and apply changes in payment policies. The update process for the DMEPOS fee schedule is located in publication 100-04, Medicare Claims Processing Manual, chapter 23, section 60.

**III. FUNDING:**

**For Medicare Administrative Contractors (MACs):**

The Medicare Administrative Contractor is hereby advised that this constitutes technical direction as defined in your contract. CMS does not construe this as a change to the MAC Statement of Work. The contractor is not obligated to incur costs in excess of the amounts allotted in your contract unless and until specifically authorized by the Contracting Officer. If the contractor considers anything provided, as described above, to be outside the current scope of work, the contractor shall withhold performance on the part(s) in question and immediately notify the Contracting Officer, in writing or by e-mail, and request formal directions regarding continued performance requirements.

## **I. GENERAL INFORMATION**

**A. Background:** The DMEPOS fee schedules are updated annually, and on a quarterly basis when necessary, in order to implement fee schedule amounts for new and existing codes, as applicable, and apply changes in payment policies. The update process for the DMEPOS fee schedule is located in publication 100-04, Medicare Claims Processing Manual, chapter 23, section 60.

Payment on a fee schedule basis is required for certain Durable Medical Equipment (DME), prosthetic devices, orthotics, prosthetics, and surgical dressings by §1834(a), (h), and (i) of the Social Security Act (the Act). Also, payment on a fee schedule basis is a regulatory requirement at 42 Code of Federal Regulations (CFR) §414.102 for Parenteral and Enteral Nutrition (PEN), splints, casts and Intraocular Lenses (IOLs) inserted in a physician's office. The DMEPOS and PEN fee schedule files contain Healthcare Common Procedure Coding System (HCPCS) codes that are subject to fee schedule adjustments using information on the payment determined for these items under the DMEPOS Competitive Bidding Program (CBP), as well as codes that are not subject to the CBP or fee schedule adjustments.

Section 1834(a)(1)(F)(ii) of the Act mandates adjustments to the fee schedule amounts for DME items included in the CBP for payment of the items in areas that are not included in the CBP. Sections 1834(h)(1)(H)(ii) and 1842(s)(3)(B) of the Act provide authority to adjust the fee schedule amounts for off-the-shelf orthotics or braces and enteral nutrients, equipment, and supplies (enteral nutrition), respectively, based on information from the CBP. The methodologies for adjusting DMEPOS fee schedule amounts under this authority are established at 42 CFR §414.210(g).

### **The Coronavirus (COVID-19) Aid, Relief, and Economic Security (CARES) Act, 2020**

Section 3712 of the CARES Act was signed into law on March 27, 2020. Additional information on section 3712 of the CARES Act is available in Transmittal 10016, Change Request 11784, dated May 8, 2020. The fees in the January 2023 fee schedule update continue to reflect the requirements of the CARES Act. Sections 3712(a) and (b) of the CARES Act, respectively, require the following:

(a) For items and services subject to the fee schedule adjustments furnished in rural or non-contiguous areas, the fee schedule amounts will continue to be based on a blend of 50 percent of the adjusted fee schedule amounts and 50 percent of the unadjusted fee schedule amounts through December 31, 2020, or the duration of the COVID-19 public health emergency, whichever is later.

(b) For items and services subject to the fee schedule adjustments furnished in non-rural contiguous non-Competitive Bidding Area (non-CBAs), the fee schedule amounts will be based on a blend of 75 percent of the adjusted fee schedule amounts and 25 percent of the unadjusted fee schedule amounts for claims with dates of

service beginning March 6, 2020, and continuing until the end of the COVID-19 public health emergency.

Since the public health emergency has not ceased, the update for the 2023 DMEPOS and PEN fee schedule files continue to include the rural and non-contiguous non-CBA 50/50 blended fees and the non-rural contiguous non-CBA 75/25 blended fees required by section 3712 of the CARES Act.

For the 2023 fee schedule update, the following fee schedule adjustment methodologies apply in non-CBAs based on the areas in which the items and services are furnished:

#### 1. Fee Schedule Amounts for Areas within the Contiguous United States

In accordance with CARES and §414.210(g)(9)(iii), the adjusted fee schedule amounts for items furnished in non-competitively bid rural areas are based on a blend of 50 percent of the adjusted fee schedule amount and 50 percent of the unadjusted fee schedule amount for the item, which is updated by the covered item updates specified in sections 1834(a)(14), 1834(h)(4), and 1842(s)(B) of the Act, for DME, orthotics, and enteral nutrition respectively. Per CARES and §414.210(g)(v), the adjusted fee schedule amounts for items furnished in non-competitively bid non-rural areas are based on a blend of 75 percent of the adjusted fee schedule amount and 25 percent of the unadjusted fee schedule amount for the item, which is updated by the covered item updates specified in section 1834(a)(14), 1834(h)(4), and 1842(s)(B) of the Act, for DME, orthotics, and enteral nutrition respectively.

To determine the adjusted fee schedule amounts, the average of the Single Payment Amounts (SPAs) from CBAs located in eight different regions of the contiguous United States are used to adjust the fee schedule amounts for the states located in each of the eight regions. These Regional SPAs or RSPAs are also subject to a national ceiling (110% of the average of the RSPAs for all contiguous states plus the District of Columbia) and a national floor (90% of the average of the RSPAs for all contiguous states plus the District of Columbia). This methodology applies to competitively bid items furnished in the contiguous United States, i.e., those included in more than 10 CBAs. Fees schedule amounts for competitively bid items included in 10 or fewer CBAs are adjusted so that they are equal to 110 percent of the average of the SPAs for the 10 or fewer CBAs.

Also, the ZIP code associated with the address used for pricing a DMEPOS claim determines the rural fee schedule payment applicability for codes with rural and non-rural adjusted fee schedule amounts. The DMEPOS Rural ZIP code file contains the ZIP codes designated as rural areas. ZIP codes for non-continental Metropolitan Statistical Areas (MSA) are not included in the DMEPOS Rural ZIP code file. The DMEPOS Rural ZIP code file is updated on a quarterly basis as necessary. Regulations at §414.202 define a rural area to be a geographical area represented by a postal ZIP code where at least 50 percent of the total geographical area of the ZIP code is estimated to be outside any MSA. A rural area also includes any ZIP Code within an MSA that is excluded from a competitive bidding area established for that MSA.

#### 2. Fee Schedule Amounts for Areas outside the Contiguous United States

In accordance with CARES and §414.210(g)(9)(iii), fee schedule amounts for items furnished in areas outside the contiguous United States (i.e., noncontiguous areas such as Alaska, Guam, Hawaii) are based on a blend of 50 percent of the adjusted fee schedule amount and 50 percent of the unadjusted fee schedule amounts updated by the covered item updates specified in sections 1834(a)(14), 1834(h)(4) and 1842(s)(B) of the Act. Areas outside the contiguous United States receive adjusted fee schedule amounts so that they are equal to the higher of the average of SPAs for CBAs in areas outside the contiguous United States (currently only applicable to Honolulu, Hawaii) or the national ceiling amounts described above and calculated based on SPAs for areas within the contiguous United States.

### 3. Fee Schedule Amounts for Items Where Contracts Were Not Awarded In Round 2021 of the CBP in Competitive Bidding Areas (CBAs) and Former CBAs

Round 2021 of the DMEPOS CBP began on January 1, 2021 and extends through December 31, 2023. On October 27, 2020, the Centers for Medicare & Medicaid Services (CMS) announced that it will only award Round 2021 CBP contracts to bidders in the off-the-shelf back and knee brace product categories (see <https://www.cms.gov/files/document/round-2021-dmepos-cbp-single-payment-amts-fact-sheet.pdf>). CMS did not award Round 2021 CBP contracts to bidders that bid in any of the other 13 product categories that were included in Round 2021 of the CBP. In addition, in three of the 130 CBAs, no contracts were awarded for Round 2021 and these areas (Colorado Springs, CO, Miami-Fort Lauderdale-West Palm Beach, FL, and Worcester, MA) remain as former CBAs during this round.

For items that were included in Round 2021 but where contracts have not been awarded in Round 2021 of the CBP, pursuant to §414.210(g)(10), the fee schedules for these items and services furnished in CBAs are based on the SPAs in effect in the CBA on the last day before the CBP contract period of performance ended (i.e., December 31, 2018), increased by the projected percentage change in the Consumer Pricing Index for Urban Areas (CPI-U) for the 12-month period on the date after the contract periods ended. The fee schedule amounts are increased once every 12 months on the anniversary date of the first day after the contract period ended with the CPI-U. For Calendar Year (CY) 2019, the fee schedule amounts for these items were adjusted based on the SPAs for each specific CBA, increased by the projected percentage change in the CPI-U of 2.5 percent for the 12-month period ending January 1, 2019. For CY 2020, the adjusted fee schedule amounts were increased by the projected change in the CPI-U of 2.4 percent. For CY 2021, the 2020 adjusted fee schedule amounts are increased by the projected percentage change in the CPI-U of 0.6 percent for the 12-month period ending January 1, 2021. For CY 2022, the 2021 adjusted fee schedule amounts are increased by the projected percentage change in the CPI-U of 5.0 percent for the 12-month period ending January 1, 2022. For CY 2023, the 2022 adjusted fee schedule amounts are increased by the projected percentage change in the CPI-U of 6.4 percent for the 12-month period ending January 1, 2023.

A former CBA ZIP code file contains the competitive bidding area ZIP codes used in pricing a claim for an item furnished in a CBA and will be updated on a quarterly basis as necessary. Beginning January 1, 2023, the former CBA ZIP code file will contain the CBA ZIP codes for the items in the 13 product categories where contracts were not awarded in from Round 2021 of the CBP.

#### **KE Modifier**

As the revised fee schedule amounts are based in part on unadjusted fee schedule amounts, the January 2023 DMEPOS fee schedule files will also continue to incorporate fee schedule amounts for certain codes billed in conjunction with modifier KE for all non-CBA areas. Background information on the KE modifier was issued in Transmittal 1630, CR 6270, dated November 7, 2008. In cases where accessories included in the Initial Round One CBP in 2008 are furnished for use with base equipment that was not included in the 2008 CBP (for example, manual wheelchairs where the KU modifier does not apply, canes, and aspirators), for beneficiaries residing in non-rural areas, suppliers should append the KE modifier to the HCPCS code for the accessory.

#### **Correction to the 2022 DMEPOS Fee Schedule Amounts**

On November 10, 2022, CMS released revised 2022 Medicare DMEPOS fee schedule public use files containing corrections for certain items furnished in non-contiguous areas (Alaska, Hawaii, Puerto Rico, and the U.S. Virgin Islands). The public use file includes a list of the 179 HCPCS code and modifier combinations affected by the revisions. Less than 3,000 claims were affected and claims will be automatically reprocessed by the DME MACs with dates of service on or after January 1, 2022.

**B. Policy:** The DMEPOS fee schedule file contains fee schedule amounts for non-rural and rural areas. Also, the PEN fee schedule file includes state fee schedule amounts for enteral nutrition items and national fee schedule amounts for parenteral nutrition items.

This recurring update notification provides updates for the following files:

DMEPOS fee schedule file for 2023

1. DMEPOS fee schedule file for 2023
2. DMEPOS Rural ZIP code file for Quarter 1, 2023
3. DMEPOS Parenteral and Enteral Nutrition (PEN) fee schedule file for 2023
4. Former Competitive Bidding Areas (CBA) Fee schedule file
5. Former CBA National Mail Order diabetic testing supply fee schedule
6. Former CBA ZIP Code

These updates will also be available as Public Use Files (PUFs) for State Medicaid Agencies, managed care organizations, and other interested parties on the CMS website at <https://www.cms.gov/Medicare/Medicare-Fee-for-Service-Payment/DMEPOSFeeSched/DMEPOS-Fee-Schedule>.

### **New Codes Added**

New DMEPOS codes added to the Healthcare Common Procedure Coding System file, effective January 1, 2023 are listed in Business Requirement (BR) seven (7) of this instruction. The new codes are not to be used for billing purposes until they are effective on January 1, 2023.

A4239 Supply allowance for non-adjunctive, non-implanted continuous glucose monitor (cgm), includes all supplies and accessories, 1month supply = 1 unit of service

E2103 Non-adjunctive, non-implanted continuous glucose monitor or receiver

For gap-filling purposes, the deflation factors for 2022 by payment category are:

- 0.370 for Oxygen
- 0.372 for Capped Rental
- 0.373 for Prosthetics and Orthotics
- 0.473 for Surgical Dressings
- 0.515 for Parental and Enteral Nutrition (PEN)
- 0.788 for Splints and Casts
- 0.774 for Intraocular Lenses (IOL)

Instructions for Gap-filling DMEPOS fees are available in publication 100-04, Medicare Claims Processing Manual, chapter 23, section 60.3.

### **Codes Deleted**

Codes deleted from the DMEPOS fee schedule file effective January 1, 2023: K0553 K0554

For items and services billed using HCPCS codes for specific items and services that do not have national Benefit Category Determinations (BCDs) and/or payment determinations, the Medicare benefit category, coverage and or payment determinations for these items will be made based on the discretion of the Medicare contractors processing claims submitted for these items. Additional information on final benefit category and

payment determinations for HCPCS code changes discussed during the B1 2022 HCPCS cycle is available in the HCPCS narrative summaries at <https://www.cms.gov/medicare/coding/medhcpcsgeninfo/prior-years-cms-hcpcs-levelii-coding-decisions-narrative-summary>

## **2023 Fees Update Factor of 8.7 Percent**

For CY 2023, an update factor of 8.7 percent is applied to certain DMEPOS fee schedule amounts that are not adjusted using information from CBPs.

In accordance with the statutory sections 1834(a)(14), 1834(h)(4) and 1842(s)(1)(B) of the Act, certain DMEPOS fee schedule amounts are updated for 2023 by the percentage increase in the consumer price index for all urban consumers (United States city average) CPI- U for the 12-month period ending June 30, 2022, adjusted by the change in the economy-wide productivity equal to the 10-year moving average of changes in annual economy-wide private nonfarm business Multi-Factor Productivity (MFP). In the above statutory sections, the productivity measure referenced in section 1886(b)(3)(B)(xi)(II) was published by the United States Bureau of Labor Statistics (BLS) as private nonfarm business MFP. Beginning with the November 18, 2021 release of productivity data, BLS replaced the term multifactor productivity with Total Factor Productivity (TFP) stating that this is a change in terminology only and will not affect the data or methodology. The CY 2023 productivity adjustment is the TFP which reflects the 10-year moving average of changes for the period ending June 30, 2022. Additional information on the TFP is available at <https://www.bls.gov/productivity/technical-notes/>

For CY 2023, the TFP adjustment is 0.4 percent and the CPI- U percentage increase is 9.1 percent. Thus, the 9.1 percentage increase in the CPI-U is reduced by the 0.4 percentage increase in the TFP resulting in a net increase of 8.7 percent for the update factor.

Fees adjusted using information from CBPs will be updated pursuant to the applicable adjustment methodologies outlined in 42 CFR §414.210(g) discussed in the Background section above.

## **2023 Oxygen and Oxygen Equipment Fee Schedule Amounts**

For CY 2023, a budget neutrality offset is not applied. A budget neutrality offset, set forth in section 1834(a)(9)(D)(ii) of the Act, no longer applies to oxygen payment classes and items in accordance with section 121 of division H of title II of the Consolidated Appropriations Act of 2021 (P.L. 116-260) effective April 1, 2021.

## **Therapeutic Shoe Modification Codes**

As CMS has done annually, CMS is also adjusting the fee schedule amounts for shoe modification codes A5503 through A5507 to reflect the most current allowed service data. Section 1833(o)(2)(C) of the Act required that the payment amounts for shoe modification codes A5503 through A5507 be established in a manner that prevented a net increase in expenditures when substituting these items for therapeutic shoe insert codes (A5512, A5513 and A5514). To establish the fee schedule amounts for the shoe modification codes, the base fees for codes A5512 and A5513 were weighted based on the approximated total allowed services for each code for items furnished during the second quarter of calendar year 2004. For 2023, CMS is updating the weighted average insert fees used to establish the fee schedule amounts for the shoe modification codes with the most current allowed service data for each insert code. The base fees for A5512, A5513 and A5514 will be weighted based on the approximated total allowed services for each code for items furnished during the calendar year 2021. The fee schedule amounts for shoe modification codes A5503 through A5507 are being revised to reflect this change, effective January 1, 2023.

## **Diabetic Testing Supplies**

The fee schedule amounts for non-mail order Diabetic Testing Supplies (DTS) (without KL modifier) for codes A4233, A4234, A4235, A4236, A4253, A4256, A4258, A4259 are not updated by the annual covered item update. In accordance with section 1834(a)(1)(H) of the Act, the fee schedule amounts for these codes were adjusted in CY 2013 so that they are equal to the SPAs for mail order DTS established in implementing the national mail order CBP under section 1847 of the Act. Initial program instructions on these fees are available in Transmittal 2709, CR 8325, dated May 17, 2013 and Transmittal 2661, CR 8204, dated February 22, 2013. The National Mail-Order Recompete DTS SPAs are available at the following website: <https://www.dmecompetitivebid.com/palmetto/cbic.nsf/DocsCat/Home>.

The non-mail order DTS amounts on the fee schedule will be updated each time the single payment amounts are updated. This can happen no less often than every time the mail order CBP contracts are recompeted.

The National Mail Order Recompete CBP for mail order diabetic supplies was effective July 1, 2016 to December 31, 2018. As of January 1, 2023, payment for non-mail order diabetic supplies at the National Mail Order Recompete SPAs will continue in accordance with section 1834(a)(1)(H) of the Act and these rates will remain in effect until new SPA rates are established under the national mail order program.

Effective January 1, 2023, the fee schedule amounts for mail order DTS (with KL modifier) are adjusted using the methodology for areas that were formerly CBAs during periods when there is a temporary lapse in the CBP. The National Mail-Order Recompete DTS SPAs of December 31, 2018 are increased by the projected percentage change in the CPI-U for the 12-month period on the date after the contract periods ended. The fee schedule amounts are increased once every 12 months on the anniversary date of the first day after the contract period ended with the CPI-U. For dates of service between January 1, 2019 and December 31, 2019, the National Mail-Order Recompete SPAs are updated by the projected change of 2.5 percent. For CY 2020, the adjusted CY 2019 mail order DTS fees are updated by the projected percentage change in the CPI-U of 2.4 percent for the 12-month period ending January 1, 2020. For CY 2021, the adjusted CY 2020 mail order DTS fees are updated by the projected percentage change in the CPI-U of 0.6 percent for the 12-month period ending January 1, 2021. For CY 2022, the 2021 adjusted fee schedule amounts are increased by the projected percentage change in the CPI-U of 5.0 percent for the 12-month period ending January 1, 2022. For CY 2023, the 2022 adjusted fee schedule amounts are increased by the projected percentage change in the CPI-U of 6.4 percent for the 12-month period ending January 1, 2023. The national mail order adjusted fee schedule amounts will be used in paying mail order diabetic testing supply claims in all parts of the United States, including the 50 states, the District of Columbia, Puerto Rico, the U.S. Virgin Islands, Guam and the American Samoa.

## **2023 Maintenance and Servicing Payment Amount for Certain Oxygen Equipment**

Also updated for 2023 is the payment amount for maintenance and servicing for certain oxygen equipment. Payment for claims for maintenance and servicing of oxygen equipment was instructed in Transmittal 635, CR 6792, dated February 5, 2010 and Transmittal 717, CR 6990, dated June 8, 2010. To summarize, payment for maintenance and servicing of certain oxygen equipment can occur every 6 months beginning 6 months after the end of the 36th month of continuous use or end of the supplier's or manufacturer's warranty, whichever is later for either HCPCS code E1390, E1391, E0433 or K0738, billed with the "MS" modifier. Payment cannot occur more than once per beneficiary, regardless of the combination of oxygen concentrator equipment and/or transfilling equipment used by the beneficiary, for any 6-month period.

Per 42 CFR §414.210(e)(5)(iii), the 2010 maintenance and servicing fee for certain oxygen equipment was based on 10 percent of the average price of an oxygen concentrator. For CY 2011 and subsequent years, the maintenance and servicing fee is adjusted by the covered item update for DME as set forth in §1834(a)(14) of the Act. Thus, the 2023 maintenance and servicing fee is adjusted by the 8.7 percent MFP-adjusted covered item update factor to yield a CY 2023 maintenance and servicing fee of \$83.59 for oxygen concentrators and

transfilling equipment.

## **2023 Labor Payment Amounts for Repairs & Service Codes**

Included in Attachment A are the CY 2023 allowed payment amounts for HCPCS labor payment codes K0739, L4205 and L7520. Since the percentage increase in the Consumer Price Index for all urban consumers (CPI- U) for the twelve-month period ending with June 30, 2022 is 9.1 percent, this change is applied to the 2022 labor payment amounts to update the rates for CY 2023. The 2023 labor payment amounts in Attachment A are effective for claims submitted using HCPCS codes K0739, L4205 and L7520 with dates of service from January 1, 2023 through December 31, 2023.

## **Continuous Glucose Monitors (CGMs)**

On December 28, 2021, CMS published the Medicare DMEPOS final rule in the Federal Register (CMS-1738-F/CMS1687-F/CMS-5531-F) that addressed the classification and payment of adjunctive CGMs under the Medicare Part B benefit for DME. The final rule is available at <https://www.cms.gov/medicare/medicare-fee-for-service-payment/dmeposfeesched>

This rule expanded the classification of DME to a larger group of non-implantable CGMs, regardless of whether the CGMs are non-adjunctive (can alert patients when glucose levels are approaching dangerous levels, including while they sleep and also replace blood glucose monitors) or adjunctive (can alert patients when glucose levels may be approaching dangerous levels, including while they sleep but do not replace blood glucose monitors), as long as the CGMs otherwise satisfy the regulatory definition of DME.

Effective April 1, 2022, codes A4238 (Supply allowance for adjunctive CGM, includes all supplies and accessories, 1month supply = 1 unit of service) and E2102 (Adjunctive Continuous Glucose Monitor or Receiver) were added to the HCPCS file to describe adjunctive CGM receivers and supplies and accessories. Additional information on the coding and payment for adjunctive CGMs is available in the April 2022 DMEPOS Fee Schedule Change Request, Transmittal 11292, CR 12654.

CMS obtained additional public consultation on the adjunctive continuous glucose monitor and related supplies and accessories as well as other CGM coding changes at a June 8, 2022 HCPCS Public Meeting. A narrative summary for the B1 2022 Non-Drug and Non-Biological Items and Services Coding Cycle is available on the CMS website at <https://www.cms.gov/Medicare/Coding/MedHCPCSGenInfo/Prior-Years-CMS-HCPCS-LevelII-Coding-Decisions-Narrative-Summary>. In consideration of the public consultation, the effective date for coding changes for new and revised CGM codes A4238, A4239, A9276, A9277, A9278, E2102, E2103, K0553, K0554 was delayed from October 1, 2022 until January 1, 2023.

Effective January 1, 2023, the fees for code K0553 (Supply allowance for therapeutic continuous glucose monitor (CGM), includes all supplies and accessories, 1month supply = 1 unit of service) and K0553 KF are deleted from the DMEPOS fee schedule file and crosswalked to new code/modifier combinations A4239 (Supply allowance for non-adjunctive, non-implanted continuous glucose monitor (cgm), includes all supplies and accessories, 1 month supply = 1 unit of service) and A4239 KF, respectively.

Effective January 1, 2023, the fees for code K0554 (Receiver (monitor), dedicated, for use with therapeutic glucose continuous monitor system) and K0554 KF are deleted from the DMEPOS fee schedule file and crosswalked to new code/modifier combinations E2103 (Non-adjunctive, non-implanted continuous glucose monitor or receiver) and E2103 KF, respectively.

The code descriptors for adjunctive CGM codes A4238 and E2102 are revised as follows, effective January 1, 2023, to add “non-implanted” to clarify use with no associated changes to the Class III code/modifier KF fee

schedule amounts on the DMEPOS fee schedule file:

A4238 Supply allowance for adjunctive, non-implanted continuous glucose monitor (cgm), includes all supplies and accessories, 1month supply = 1 unit of service

E2102 Adjunctive, non-implanted continuous glucose monitor or receiver

Also, effective January 1, 2023, HCPCS codes A9276, A9277 and A9278 codes will be made valid for Medicare for suppliers to submit a claim for a non-DME CGM item to effectuate receipt of a Medicare denial for the claim. The revised code descriptors follow:

A9276 Sensor; invasive (e.g., subcutaneous), disposable, for use with non-durable medical equipment interstitial continuous glucose monitoring system, one unit = 1day supply

A9277 Transmitter; external, for use with non-durable medical equipment interstitial continuous glucose monitoring system

A9278 Receiver (monitor); external, for use with non-durable medical equipment interstitial continuous glucose monitoring system

## II. BUSINESS REQUIREMENTS TABLE

*"Shall" denotes a mandatory requirement, and "should" denotes an optional requirement.*

## VI. FUNDING

### **Section A: For Medicare Administrative Contractors (MACs):**

The Medicare Administrative Contractor is hereby advised that this constitutes technical direction as defined in your contract. CMS does not construe this as a change to the MAC Statement of Work. The contractor is not obligated to incur costs in excess of the amounts allotted in your contract unless and until specifically authorized by the Contracting Officer. If the contractor considers anything provided, as described above, to be outside the current scope of work, the contractor shall withhold performance on the part(s) in question and immediately notify the Contracting Officer, in writing or by e-mail, and request formal directions regarding continued performance requirements.

#### **60.3 - Gap-filling DMEPOS Fees**

*(Rev. 11722; Issued: 12-02-22; Effective: 01-01-23; Implementation: 01-03-23)*

##### ***T-cells***

If a HCPCS code is new and describes items and services that have a fee schedule pricing history (classified and paid for previously under a different code), the fee schedule amounts for the new code are established using the process included in section 60.3.1 of this manual.

The DME MACs and A/B MACs Part B shall gap-fill the DMEPOS fee schedule for items for which charge data were unavailable during the fee schedule data base year using the fee schedule amounts for comparable equipment. Fee schedule amounts for new HCPCS codes for items and services without a fee schedule pricing history are established using existing fee schedule amounts for comparable items when items with existing fee schedule amounts are determined to be comparable to the new items and services. A comparison can be based on, but not limited to the following components: physical, mechanical, electrical, function and intended use, and additional attributes and features. When examining whether an item is comparable to another item, the analysis can be based on the items as a whole, its subcomponents, or a combination of items. A new product does not need to be comparable within each category, and there is no prioritization to the categories.

#### Examples of Attributes in Each Component Category

- Physical: Aesthetics, Design, Customized vs. Standard, Material, Portable, Size, Temperature Range/Tolerance, Weight
- Mechanical: Automated vs. Manual, Brittleness, Ductility, Durability, Elasticity, Fatigue, Flexibility, Hardness, Load Capacity, Flow-Control, Permeability, Strength
- Electrical: Capacitance, Conductivity, Dielectric Constant, Frequency, Generator, Impedance, Piezo-electric, Power, Power Source, Resistance
- Function and Intended Use: Function, Intended Use
- Additional Attributes and Features: “Smart”, Alarms, Constraints, Device Limitations, Disposable, Parts, Features, Invasive vs. Non-Invasive.

If unable to identify comparable item(s), other sources of pricing data can be used to calculate the gap-filled fee schedule amount for the new item. These sources include using supplier or commercial price lists with prices in effect during the fee schedule data base year. Data base “year” refers to the time period mandated by the statute and/or regulations from which Medicare allowed charge data is to be extracted in order to compute the fee schedule amounts for the various DMEPOS payment categories. For example, the fee schedule base year for inexpensive or routinely purchased durable medical equipment is the 12 month period ending June 30, 1987. Supplier price lists include catalogues and other retail price lists (such as internet retail

prices) that provide information on commercial pricing for the item. Potential appropriate sources for such commercial pricing information can also include payments made by Medicare Advantage plans as well as verifiable information from supplier invoices and non-Medicare payer data (e.g., fee schedule amounts comprised of the median of the commercial pricing information adjusted as described below). DME MACs and A/B MACs shall gap-fill based on current instructions released each year for implementing and updating the payment amounts.

If the only available price information is from a period other than the base period, apply the deflation factors that are included in the current year implementation instructions against current pricing in order to approximate the base year price for gap-filling purposes.

The deflation factors for gap-filling purposes are:

IN, FS, OS and SU category deflation factors=PO deflation factors

After deflation, the result must be increased by 1.7 percent and by the cumulative covered item update to complete the gap-filling (e.g., an additional .6 percent for a 2002 DME fee).

Note that when gap-filling for capped rental items, it is necessary to first gap-fill the purchase price then compute the base period fee schedule at 10 percent of the base period purchase price.

For used equipment, establish fee schedule amounts at 75 percent of the fee schedule amount for new equipment.

When gap-filling, for those DME MAC or A/B MAC Part B areas where a sales tax was imposed in the base period, add the applicable sales tax, e.g., five percent, to the gap-filled amount where the gap-filled amount does not take into account the sales tax, e.g., where the gap-filled amount is computed from pre-tax price lists or from another DME MAC or A/B MAC Part B area without a sales tax. Likewise, if the gap-filled amount is calculated from another DME MAC's or A/B MAC's fees where a sales tax is imposed, adjust the gap-filled amount to reflect the applicable local sales tax circumstances.

Contractors send their gap-fill information to CMS. After receiving the gap-filled base fees each year, CMS develops national fee schedule floors and ceilings and new fee schedule amounts for these codes and releases them as part of the July update file each year and during the quarterly updates.

If within 5 years of establishing fee schedule amounts using supplier or commercial prices, the supplier or commercial prices decrease by less than 15 percent, CMS can make a one-time adjustment to the fee schedule amounts using the new prices. The new supplier or commercial prices would be used to establish the new fee schedule amounts in the same way that the older prices were used, including application of the deflation formula of this section.
