Assurance and Action Plan Documenting Steps to Come Into Compliance – due August 19, 2019

To demonstrate good-faith efforts to comply with the Final Rule, the U.S. Department of Health and Human Services, Office of Population Affairs (OPA) expects all Title X grantees to complete the following:

- Assurance and Action Plan Documenting Steps to Come Into Compliance – **Due by August 19, 2019**

To support grantees in fulfilling this request, this document provides sample language for the assurance, action plan, statement, and supporting evidence. The written statements, planned action steps, completed action steps, and supporting evidence/documentation listed in this document are merely examples. They do not reflect an exhaustive list of statements, actions, and documentation that grantees may provide to demonstrate good-faith efforts to comply with the Final Rule.

OPA does not plan to not use any rigid formula to assess compliance with the Final Rule and recognizes that compliance by each grantee warrants particularized evaluation. Accordingly, OPA plans to make an individualized determination in each case. While the statements, actions, and documentation set out in this document are examples of good-faith efforts that may be relevant in evaluating compliance with the Final Rule, they are not meant to be either a checklist or a formula for compliance. And, in any particular case, the examples may not all be relevant, and others may be more salient given the particular facts at issue. A grantee can use an alternative approach to demonstrating compliance if it satisfies the requirements of the Title X statutes and the Final Rule; if you want to discuss an alternative approach, please contact your HHS Project Officer.

Use of this sample document is optional, and is not a requirement of the Final Rule or any other Federal statute.
