

# Health Resources and Services Administration: Agency Overview

June 29, 2017

**CDR Joel Nelson, U.S. Public Health Service  
Acting Director, Division of Nursing and Public Health  
Bureau of Health Workforce  
Health Resources and Services Administration (HRSA)**

# Health Resources and Services Administration (HRSA)

## Overview

---

- Supports **more than 90 programs** that provide health care to people who are geographically isolated, economically or medically vulnerable **through grants and cooperative agreements** to more than 3,000 awardees, including community and faith-based organizations, colleges and universities, hospitals, state, local, and tribal governments, and private entities
- Every year, HRSA programs serve tens of millions of people, including people living with HIV/AIDS, pregnant women, mothers and their families, and those otherwise unable to access quality health care

# Agency Goals

**Increase  
Access to  
Quality  
Health Care  
and Services**

**Strengthen  
the Health  
Workforce**

**Build Healthy  
Communities**

**Improve  
Health Equity**

**Strengthen  
Program  
Operations**

# Increase Access

## to Quality Health Care and Services

One in 3 people living at or below the poverty level relies on a HRSA-supported health center for primary medical care (nearly 24.3 million people, more than 9,800 service sites)

One in 2 people diagnosed with HIV receives care through the Ryan White HIV/AIDS Program

10 million people living in health professional shortage areas receive primary medical, dental or mental health care from a National Health Service Corps clinician

# Increase Access

## to Quality Health Care and Services

Half of pregnant women and one third of infants and children benefit from maternal and child health block grants

Nearly 14 million rural Americans receive health services from HRSA-funded providers

About 145,500 parents and children participate in the national Home Visiting Program

About 30,000 organ transplants and 6,000 blood stem cell transplants are facilitated annually

# Strengthen the Health Workforce

11,600 medical, dental, and mental and behavioral health care providers in the National Health Service Corps and NURSE Corps work in health professional shortage areas

1,100 students, residents, and health providers in training receive NHSC scholarships to work in underserved communities upon graduation and licensure

Support for targeted health professions training programs focused on inter-professional care, mental and behavioral health, among others, as well as programs that increase workforce diversity

# Strengthen the Health Workforce

Support health centers that employ multi-disciplinary teams – 11,800+ physicians and 10,300+ nurse practitioners, physician assistants and certified nurse midwives

Support primary care residency programs in 60 Teaching Health Centers to help train more than 550 residents annually

Trained 5,600 new mental health providers to increase access to mental health services and make schools safer

# Build Healthy Communities

Coordinate health care activities for the **60 million** Americans living in rural areas

Support providers in rural and isolated areas improve patient care with the use of telehealth, telemedicine and health IT

Improve perinatal health outcomes and reduce racial and ethnic disparities by using community-based service delivery

# Reduce Health Disparities

Provide enabling services (housing, food, job support) to **nearly 2.4 million patients** nationwide

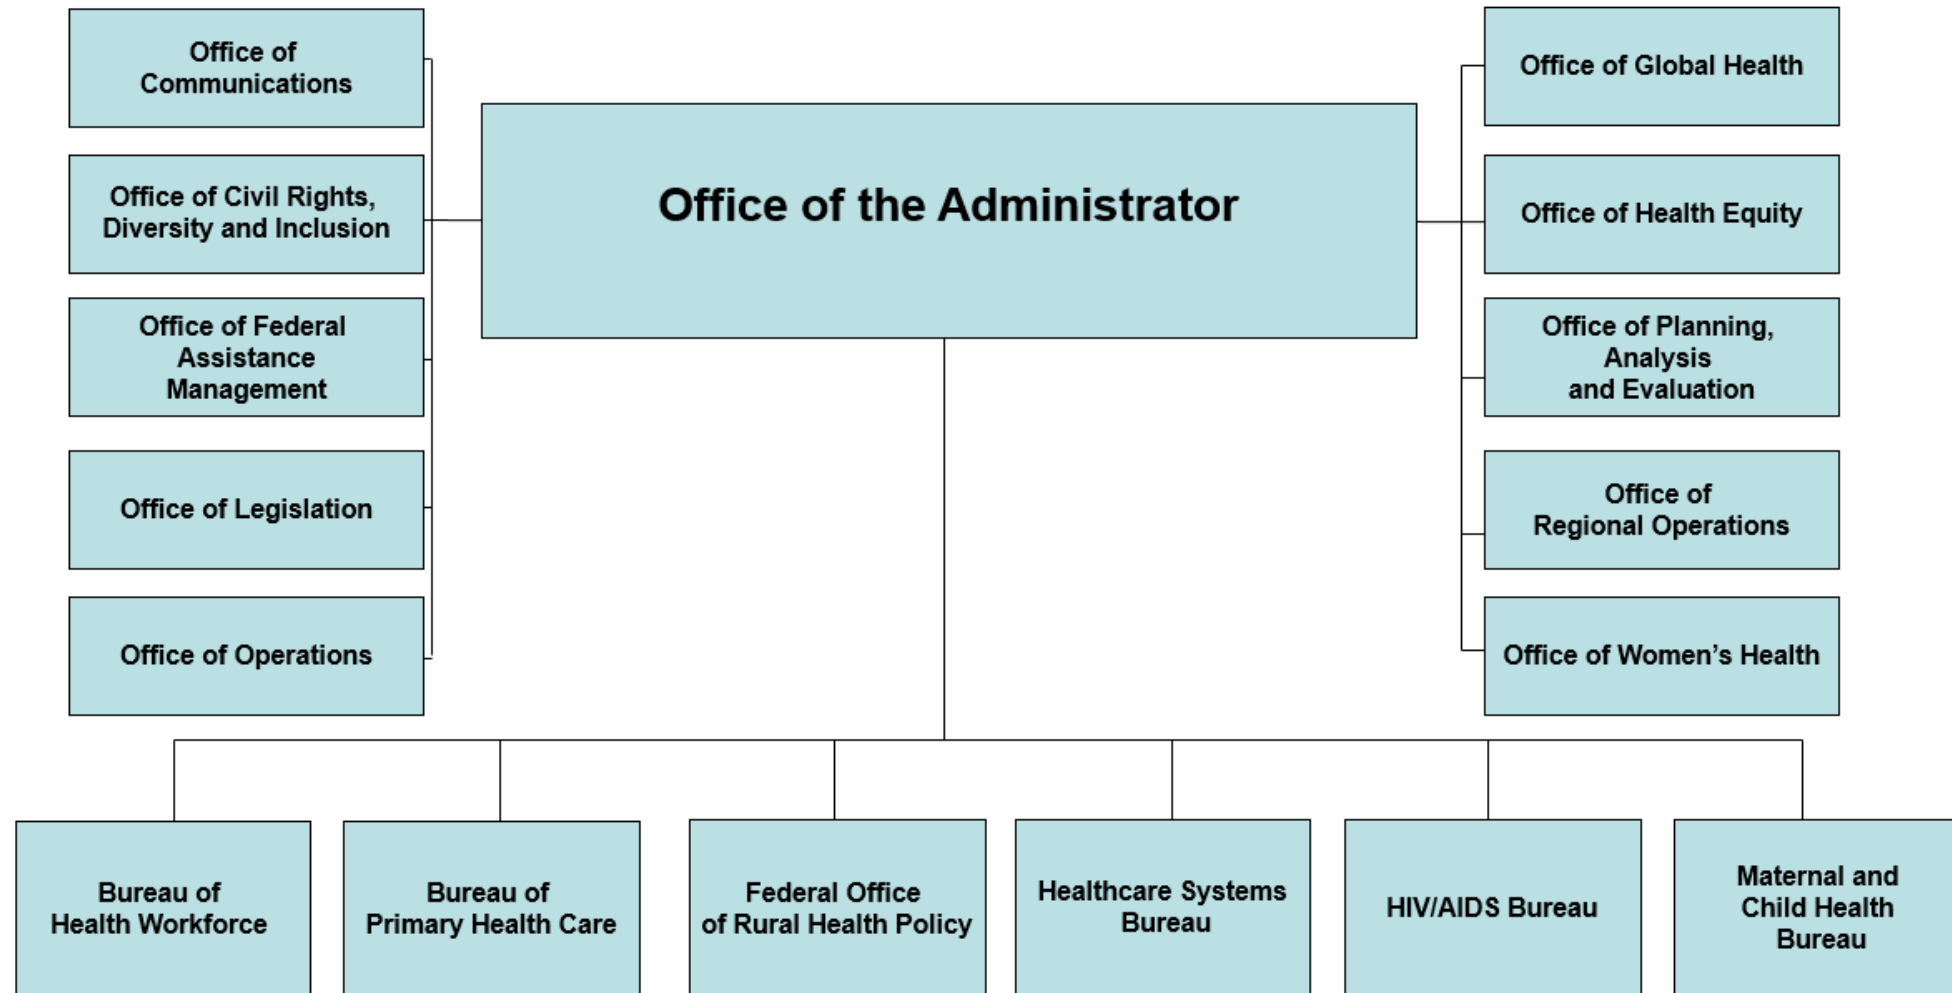

Ryan White HIV/AIDS clients' **viral suppression rates** have improved from **70% to 79%** since 2010

Save qualified safety net organizations about **\$4.5 billion** annually through the 340B Drug Pricing Program
