

HHS BY THE NUMBERS

Tackling Impactable Health Challenges

Launched the **Ending the HIV Epidemic** initiative to reduce new HIV transmissions in America by **90% by 2030**

Launched **ADVANCING AMERICAN KIDNEY HEALTH** which aims to deliver:

HRSA awarded **NEARLY \$9 MILLION** to launch the Rural Maternity and Obstetrics Management Strategies (RMOMS) program to help develop models to improve access and care in rural communities

80% of new American ESRD patients in 2025 receiving home dialysis or a transplant

DOUBLE the number of kidneys available for transplant

25% fewer Americans developing end-stage renal disease by 2030

Secured a PrEP medication donation for up to **200,000 uninsured individuals** each year for up to ten years

87%

of clients in HRSA's Ryan White HIV/AIDS Program are virally suppressed, compared with 63% of the general population of people diagnosed with HIV

CMS made changes to the **hospital wage index** in inpatient and outpatient settings to address Medicare payment disparities
