US Department of Health and Human Services

Third Party Websites and Applications Privacy Impact Assessment

Date Signed:
September 07, 2018

OPDIV:
CMS

Name:
Tealium

TPWA Unique Identifier:
T-6141376-200130

Is this a new TPWA?
Yes

Will the use of a third-party Website or application create a new or modify an existing HHS/OPDIV System of Records Notice (SORN) under the Privacy Act?
No

If SORN is not yet published, identify plans to put one in place.
Not applicable.

Will the use of a third-party Website or application create an information collection subject to OMB clearance under the Paperwork Reduction Act (PRA)?
No

Indicate the OMB approval number expiration date (or describe the plans to obtain OMB clearance).
Expiration Date: 1/1/01 12:00 AM

Describe the plans to obtain OMB clearance.
Explanation: OMB clearance is not required because CMS is not collecting information from individuals or entities.

Does the third-party Website or application contain Federal Records?
No

Describe the specific purpose for the OPDIV use of the third-party Website or application:
Many of the third-party tools used in connection with the Centers for Medicare & Medicaid Services’ (CMS’) websites, including CMS.gov, Medicare.gov, MyMedicare.gov, HealthCare.gov, CuidadoDeSalud.gov, Medicaid.gov, InsureKidsNow.gov, and various subdomains of the above top-level domains (TLDs), rely on cookies or web beacons to perform their functions. These TLDs are hereafter referred to as “CMS’ websites.” CMS uses Tealium iQ as a solution for CMS staff to manage these cookies and web beacons from a single interface. Specifically, Tealium iQ allows CMS to control, which cookies or web beacons are enabled/disabled, and thus which third-party tools are enabled/disabled.

Tealium iQ adds, removes and modifies code across CMS’ websites. Many of the tools CMS uses to gather visitor data and monitor the health of HealthCare.gov are deployed using Tealium iQ. Tealium iQ gives CMS and its staff and contractors an easy way to manage all of these tools.
The Tealium iQ Privacy Manager offers opt-in or opt-out choices to site visitors. Tealium iQ Privacy Manager gives site visitors control over which tags or cookies you want to accept while you visit the site.

Have the third-party privacy policies been reviewed to evaluate any risks and to determine whether the Website or application is appropriate for OPDIV use?
   Yes

Describe alternative means by which the public can obtain comparable information or services if they choose not to use the third-party Website or application:
   If consumers do not want to use CMS’ websites due to the site’s use of Tealium iQ, consumers can use other means of interaction, including but not limited to paper applications, call centers, or in-person assisters. In addition to these options, a consumer can disable their cookies if they do not want their device information to be collected.

Does the third-party Website or application have appropriate branding to distinguish the OPDIV activities from those of nongovernmental actors?
   No

How does the public navigate to the third party Website or application from the OPDIV?
   Not applicable. The public does not navigate to Tealium. Tealium works in the background.

Please describe how the public navigate to the third-party website or application:
   Not applicable. The public does not navigate to Tealium. Tealium works in the background.

If the public navigate to the third-party website or application via an external hyperlink, is there an alert to notify the public that they are being directed to anongovernmental Website?
   No

Has the OPDIV Privacy Policy been updated to describe the use of a third-party Website or application?
   Yes

Provide a hyperlink to the OPDIV Privacy Policy:
   https://www.cms.gov/privacy-policy/

Is an OPDIV Privacy Notice posted on the third-part website or application?
   No

Is PII collected by the OPDIV from the third-party Website or application?
   No

Will the third-party Website or application make PII available to the OPDIV?
   No

Describe the PII that will be collected by the OPDIV from the third-party Website or application and/or the PII which the public could make available to the OPDIV through the use of the third-party Website or application and the intended or expected use of the PII:
   CMS does not collect any PII through the use of Tealium iQ.

Describe the type of PII from the third-party Website or application that will be shared, with whom the PII will be shared, and the purpose of the information sharing:
   PII is not stored or shared.
If PII is shared, how are the risks of sharing PII mitigated?
No PII is shared with CMS.

Will the PII from the third-party website or application be maintained by the OPDIV?
No

Describe how PII that is used or maintained will be secured:
Not applicable.

What other privacy risks exist and how will they be mitigated?
CMS will use Tealium iQ in a manner that protects the privacy of consumers who visit CMS’ websites and respects the intent of visitors. CMS will conduct periodic reviews of Tealium iQ's privacy practices to ensure its policies continue to align with agency objectives and privacy policies and do not present unreasonable or unmitigated risks to consumer privacy. Tealium iQ is employed solely for the purposes of improving CMS' services and activities online related to operating CMS’ websites. Information collected by Tealium iQ is created and maintained by Tealium.

Potential Risk:

Persistent cookies are used by third party Tealium’s tools on CMS’ websites to collect user’s information such as IP address, host name, operating system, browser, screen resolution, timestamp, etc. These cookies are stored on a user’s local browser. Persistent cookies remain in your browser after you close your browser or turn off your computer. With the exception of the Tealium "Privacy Manager" cookie discussed below, Tealium cookies remain on users’ browsers for one year.

The Tealium "Privacy Manager" feature creates a cookie that and has a lifespan of 3 years. This cookie only stores information about consumer's privacy settings to ensure their preferences are saved. Because the Privacy Manager works using a cookie that is installed on a site visitor's browser, the opt-in and opt-out choices made through the Privacy Manager will only be effective on the device through which a user makes opt-in or opt-out choices using the Privacy Manager, and a user's choices will expire after 3 years when the Privacy Manager cookie expires. Thereafter, users must revisit the Privacy Manager to renew their opt-in and opt-out choices.

Mitigation:

Tealium iQ's privacy policies, notices from CMS’ websites, information published by Tealium about its privacy policies, and the ability for consumers to disable cookies and opt out of providing their information to Tealium maximizes consumers ability to protect their information and mitigates risks to their privacy.

Potential Risk:

CMS also recognizes that if Tealium iQ is not implemented correctly in relation to CMS’ websites, personal information could be collected about visitors.

Mitigation:

Therefore, to mitigate this risk, CMS only allows a limited number of trained and credentialed staff or contractors to implement Tealium iQ.
