Dear Ms. Bangle:

This is a supplemental response to your organization's Freedom of Information Act (FOIA) request to the Department of Health and Human Services (HHS) for records of the Centers for Disease Control and Prevention (CDC). The request, assigned number 2025-10001-FOIA, is the subject of litigation case number 25-cv-01020. Specifically, your organization sought all records, from January 20, 2025, through the date of processing, that mention, reference, or relate to the CDC's decision not to release an assessment prepared by the Center for Forecasting and Outbreak Analytics concerning the risk of measles transmission in connection with local vaccination rates.

For this response, I have reviewed one additional record that was inadvertently omitted from the Department's September 30, 2025, response. I have determined that this page is releasable in its entirety.

Should you have questions or concerns regarding the Department's response and/or the processing of your request, any such issues should be communicated to your legal counsel and Department of Justice Attorney representing the Department in this matter.

Sincerely,

Arianne M. Perkins
Director, FOI/Privacy Act Division
