Dear Ms. Bangle:

This is a supplemental response to your organization's Freedom of Information Act (FOIA) request to the Department of Health and Human Services (HHS) for records of the Centers for Disease Control and Prevention (CDC). The request, assigned number 2025-10001-FOIA, is the subject of litigation case number 25-cv-01020. Specifically, your organization sought all records, from January 20, 2025, through the date of processing, that mention, reference, or relate to the CDC's decision not to release an assessment prepared by the Center for Forecasting and Outbreak Analytics concerning the risk of measles transmission in connection with local vaccination rates.

For this response, we conducted a supplemental search of CDC officials' records and located thirteen additional responsive pages. After careful review, I have determined that these pages are releasable in their entirety.

Should you have questions or concerns regarding the Department's response and/or the processing of your request, any such issues should be communicated to your legal counsel and Department of Justice Attorney representing the Department in this matter.

Sincerely,

A handwritten signature in blue ink, appearing to read "Arianne M. Perkins", is located below the "Sincerely," text.

Arianne M. Perkins
Director, FOI/Privacy Act Division
