US Department of Health and Human Services

Third Party Websites and Applications Privacy Impact Assessment

Date Signed:
April 19, 2019

OPDIV:
IHS

Name:
Mashpee Community Survey

TPWA Unique Identifier:
T-9979023-203354

Is this a new TPWA?
Yes

Will the use of a third-party Website or application create a new or modify an existing HHS/OPDIV System of Records Notice (SORN) under the Privacy Act?
No

If SORN is not yet published, identify plans to put one in place.
null

Will the use of a third-party Website or application create an information collection subject to OMB clearance under the Paperwork Reduction Act (PRA)?
Yes

Indicate the OMB approval number and approval number expiration date (or describe the plans to obtain OMB clearance).
OMB Approval 0917-0039
Expiration Date: 6/30/21 12:00 AM

Describe the plans to obtain OMB clearance.
null

Does the third-party Website or application contain Federal Records?
No

Describe the specific purpose for the OPDIV use of the third-party Website or application:
This is a request for information collection, a Community Health Survey. This Information Collection is authorized by section 301 of the Public Health Service Act (42 U.S.C. 241). A 60-day FRN was published without objections. This collection is necessary to assess if the health status has improved in the Wampanoag community. The Indian Health Service would like to complete a Community Health Assessment because we want to understand the health needs of the community, and thus better target our programs. In 2002, the Department of Public Health assessment was conducted by the State of Massachusetts, this was the last assessment done for the Wampanoag Tribe. In 2011, the IHS implemented primary care into the Wampanoag Community. The community health assessment will provide knowledge into access to care, services, adherence to programs, identify challenges and potentially identify emerging issues and trends. It will help identify the gaps and let us see how we can improve our programs to effectively meet the needs of the community. SurveyMonkey will be used for this evaluation because it is secure and easy to use for participants and researchers.

Have the third-party privacy policies been reviewed to evaluate any risks and to determine whether the Website or application is appropriate for OPDIV use?

Yes

Describe alternative means by which the public can obtain comparable information or services if they choose not to use the third-party Website or application:

Due to privacy concerns, the survey will only be accessible through SurveyMonkey via two tablets at the Mashpee Wampanoag Health Service Unit (MWHSU).

Does the third-party Website or application have appropriate branding to distinguish the OPDIV activities from those of nongovernmental actors?

Yes

How does the public navigate to the third party Website or application from the OPDIV?

Other...The survey will be available on two tablets at MWHSU. The link to the survey in Survey Monkey will be preloaded and configured on the tablets.

Please describe how the public navigate to the third party website or application:

The public will navigate to the survey in SurveyMonkey through two tablets provided by intake staff at the MWHSU. A link to the survey will be preloaded and configured on the tablets.

If the public navigate to the third-party website or application via an external hyperlink, is there an alert to notify the public that they are being directed to a nongovernmental Website?

No

Has the OPDIV Privacy Policy been updated to describe the use of a third-party Website or application?

Yes

Provide a hyperlink to the OPDIV Privacy Policy:

https://www.ihs.gov/privacypolicy/

Is an OPDIV Privacy Notice posted on the third-part website or application?

No

Is PII collected by the OPDIV from the third-party Website or application?

No

Will the third-party Website or application make PII available to the OPDIV?

No
Describe the PII that will be collected by the OPDIV from the third-party Website or application and/or the PII which the public could make available to the OPDIV through the use of the third-party Website or application and the intended or expected use of the PII:
No PII collected.

Describe the type of PII from the third-party Website or application that will be shared, with whom the PII will be shared, and the purpose of the information sharing:
No PII collected.

If PII is shared, how are the risks of sharing PII mitigated?
No PII collected.

Will the PII from the third-party website or application be maintained by the OPDIV?
No

Describe how PII that is used or maintained will be secured:
No PII collected.

What other privacy risks exist and how will they be mitigated?
There are no other identified privacy risks.
