

NVAC HPV Working Group Update

Sept 11, 2013 - NVAC

Working Group Charge

The Assistant Secretary for Health (ASH) asks the National Vaccine Advisory Committee (NVAC) to review the current state of HPV immunization, to understand the root cause(s) for the observed relatively low vaccine uptake (both initiation and series completion), and to identify existing best practices all with a goal of providing recommendations on how increase use of this vaccine in young adolescents.
