

STRATEGIC PLANNING, IMPLEMENTATION TRACKING, AND PROGRESS REPORTING AT HHS

February 6, 2013

National Vaccine Advisory Committee Meeting

Strategic Plans at HHS

Addressing a Spectrum of Challenges and Priorities

- Health care quality, access, and value
- Health insurance coverage
- Research and innovation
- Public health
- Human services
- Infrastructure
- Health and human services workforce
- Efficiency, accountability, and transparency

- ...and some focus on specific topics, like vaccines

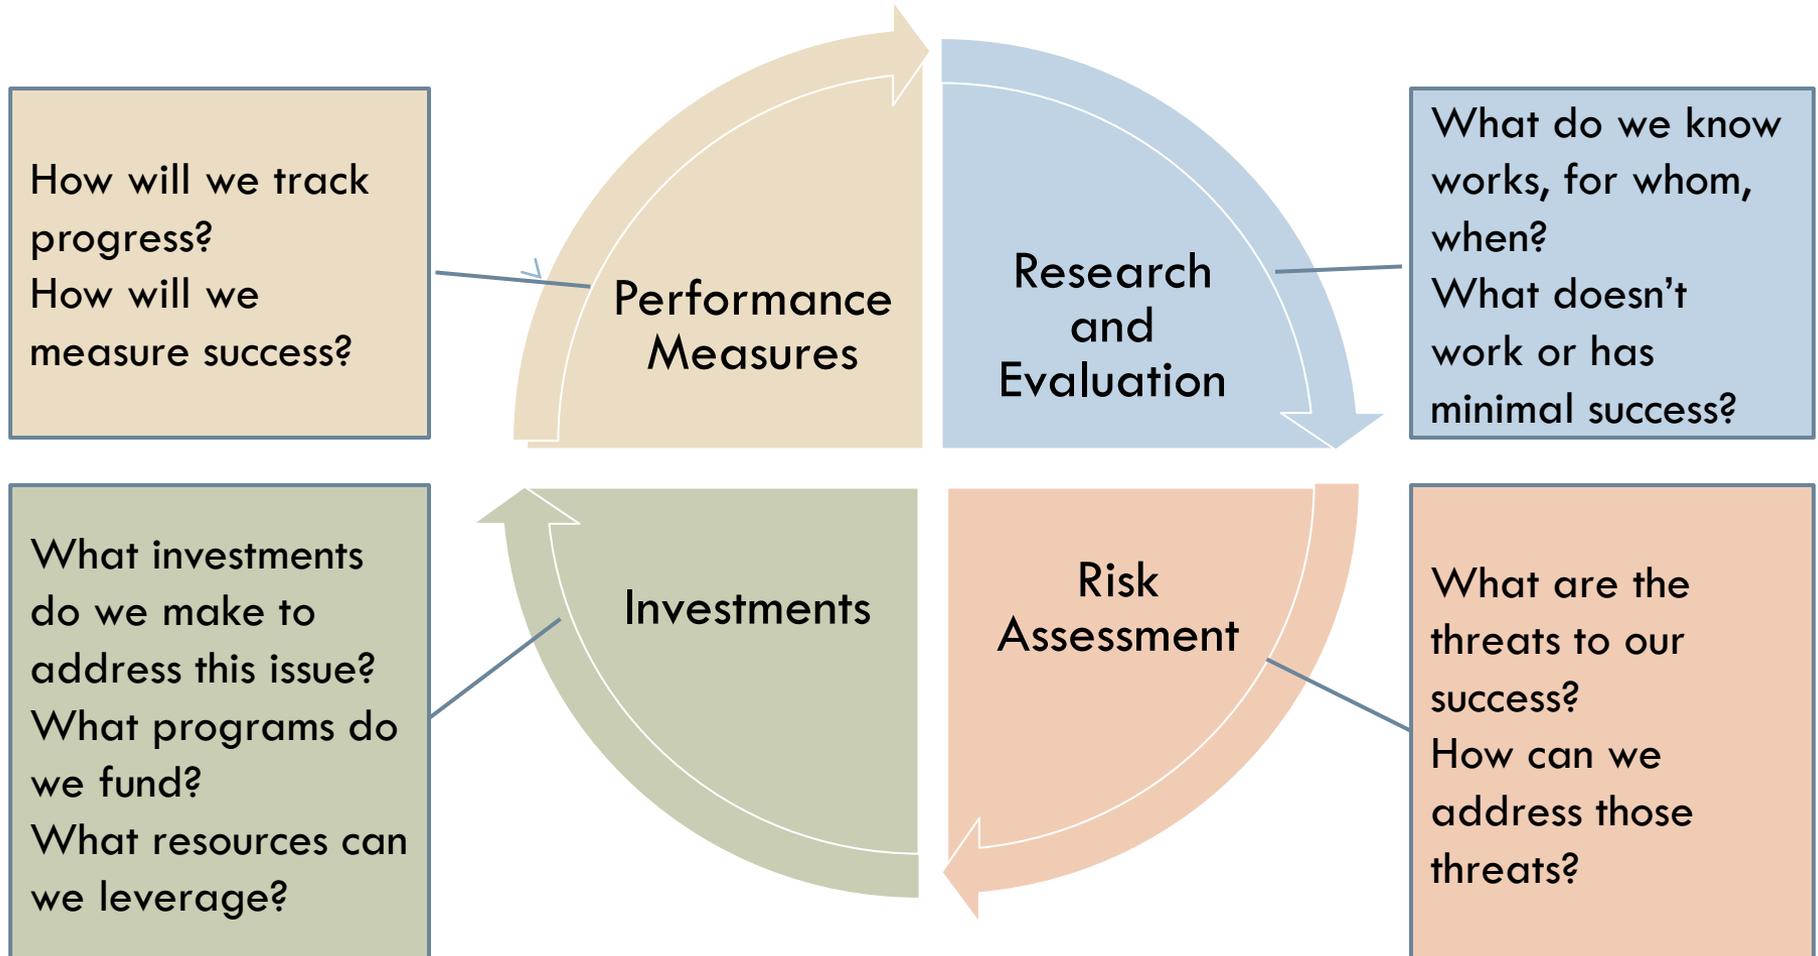

Identifying Best Practices

...and Common Challenges

- Consultation with agency staff
- Assessment of existing strategic plans and companion implementation plans
- Common questions and challenges:
 - ▣ How to create a strategic plan that, when implemented, will move the needle
 - ▣ How to track implementation without getting overwhelmed with reporting

Strategic Planning at HHS

Moving the Needle

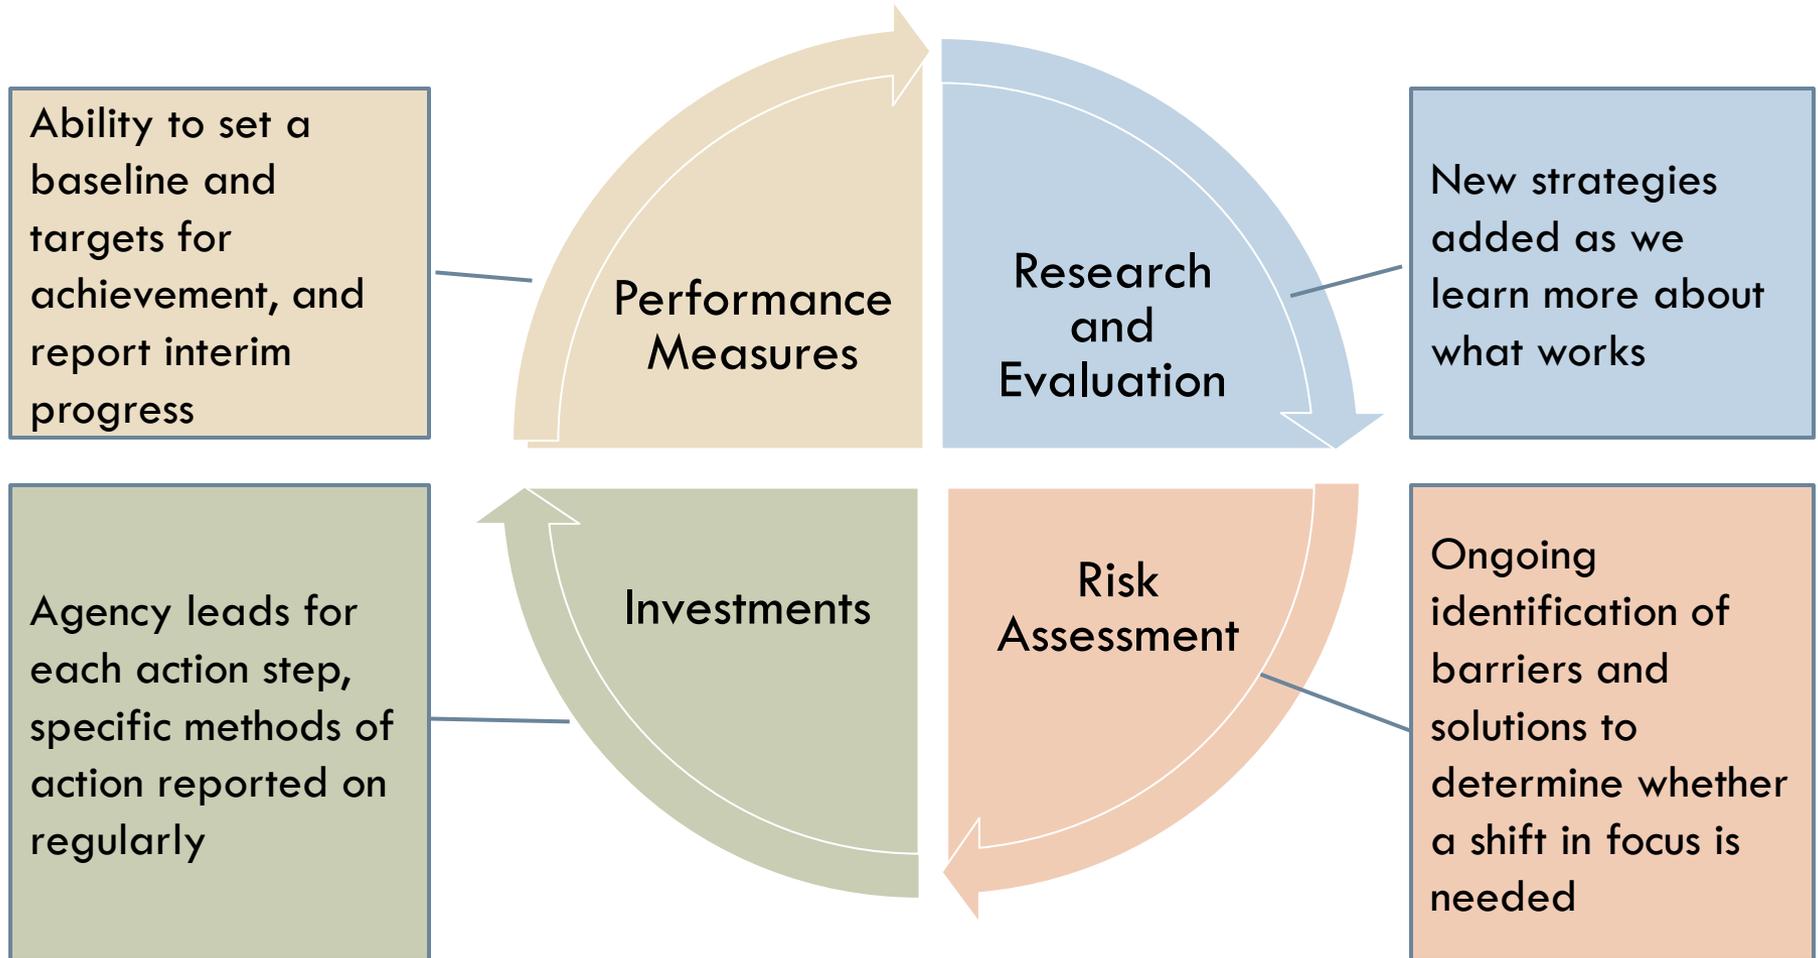

Strategic Planning System^{BETA}

Helping HHS Staff Track Implementation

- Helps HHS track progress on plans, flexibly, with their varying workgroup structures, timelines, and mandates
- Enhances the current planning and reporting process to make it simpler and less time-consuming
- Increases opportunity for coordination of effort to reduce duplication
- Informs leadership about high-visibility plans on an ongoing basis.

Strategic Planning System^{BETA}

Helping HHS Staff Track Implementation
