Although funding was only awarded at the end of September, five 5 interns were hired who all started by October 15, 2012. They are all completing their first major and minor rotations (will end Feb 28) and begin their second rotations on March 1, 2013. Interns are completing the standard major rotations in adult neuropsychology, pediatric neuropsychology, and rehabilitation psychology (all within MU Health Care), and are scheduled to begin rotations at the VA Hospital next rotation (in order to start working with veterans). To date, the interns have already evaluated and treated our traditional rehabilitation and neuropsychology clinic patients, as well as provided telehealth psychological services to active duty military soldiers from Fort Leonard Wood in rural Waynesville, Missouri. Interns have also travelled to rural Rolla, Missouri to provide neuropsychological evaluations to state vocational rehabilitation clients with traumatic brain injury (TBI). To date, one site visit has also been completed, which involved having lunch with two administrators (and former counselors) from the Missouri Division of Vocational Rehabilitation. Additional site visits to local services that provide services to the patients are currently being planned.
