Privacy Impact Assessment (PIA): OS - EFlow - QTR1 - 2020 - OS503829

Date Signed: 1/24/2020

Acronyms

ATO - Authorization to Operate

CAC - Common Access Card

FISMA - Federal Information Security Management Act

ISA - Information Sharing Agreement

HHS - Department of Health and Human Services

MOU - Memorandum of Understanding

NARA - National Archives and Record Administration

OMB - Office of Management and Budget

PIA - Privacy Impact Assessment

PII - Personally Identifiable Information

POC - Point of Contact

PTA - Privacy Threshold Assessment

SORN - System of Records Notice

SSN - Social Security Number

URL - Uniform Resource Locator

General Information

Status:	Approved	PIA ID:	1113115
PIA Name:	OS - EFlow - QTR1 - 2020 - OS503829	Title:	OS - Electronic Workflow
OnDiv:	OS		

	РТА	
PTA - 1A:	Identify the Enterprise Performance Lifecycle Phase of the system	Operations and Maintenance
PTA - 1B:	Is this a FISMA-Reportable system?	Yes
PTA - 2:	Does the system include a website or online application?	No
PTA - 3:	Is the system or electronic collection, agency or contractor operated?	Agency
PTA - 5:	Does the system have or is it covered by a Security Authorization to Operate (ATO)?	No
PTA - 7:	Describe in further detail any changes to the system that have occurred since the last PIA	Minor changes were applied to improve the quality of the Privacy Impact Assessment.
PTA - 8:	Please give a brief overview and purpose of the system by describing what the functions of the system are and how the system carries out those functions?	Electronic Workflow (eFlow) is a document imaging system used to scan invoices, as well as route invoices to designated Financial

Management Portfolio (FMP) users who will approve or reject invoices in the Unified Financial Management System (UFMS). UFMS has its own separate privacy impact assessment (PIA). The Electronic Workflow is an intermediary system that forwards scanned invoices to UFMS for payment processing. The application is used for capture of paper invoices via scanned image, indexing, workflow with Accounts Payable staff in Accounting Services (AS), reporting/status of documents in workflow, creation and output of vendor letters. The types of invoice scanned into eFlow are commercial vendor related invoices such as (FedEx, Canon, UPS,) etc. The scanning of invoices is the process of uploading the invoice documents into the system for review and payment by the Accounts Payable staff. The approval of an invoice occurs in the review process in eFlow by staff, where the vendor invoice information is compared with the information in the UFMS, if vendor information is in agreement with the UFMS, the invoice is approved for payment. The rejection process occurs when the vendor invoice scanned into Electronic Workflow (eFlow), is being reviewed by Accounts Payable staff, when the information on the vendor invoice does not match what's in the UFMS, at this point the invoice is rejected back to the vendor for updated vendor information.

PTA - 9:

List and/or describe all the types of information that are collected (into), maintained, and/or shared in the system regardless of whether that information is PII and how long that information is stored.

The Electronic Workflow (eFlow) system contains financial information about vendors such as: Vendor Name, Invoice Numbers, Account Numbers, Account Routing Numbers, and Vendor

Business Address as a scanned image of a hard-copy invoice. The vendor information stored in the Electronic Workflow, can be retrieved by (Vendorname, Address, Invoice Number, and Date) in which the invoice was scanned/uploaded into the eFlow system. The invoice information used by eFlow is already present on the invoices from vendors before they are scanned by Accounts Payable employees and direct contractors from Accounting Services (AS). The Electronic Workflow(eFlow) does not generate any new information for dissemination. The Electronic Workflow login credentials are not stored within the system. When creating a new eFlow user profile the system relies on a link with the HHS network to establish an employees or direct contractors login credential in the Electronic Workflow system Within eFlow invoices are routed to the designated direct contractor to verify the accuracy and completeness of the vendor invoice information, the contractor will compare the information in the eFlow with the vendor information provided in UFMS, if accurate the contractor will approve the vendor invoice for payment in UFMS. The Financial system of record for the paying of vendor invoices is UFMS. The information may contain personally identifiable information (PII) if vendors are individuals. Information submission to Electronic Workflow is voluntary. The system name, Invoice Scanning & Imaging System (ISIS), was the original name of the workflow application before it was changed to Electronic Workflow.

PTA - 10:

Describe why all types of information is collected (into), maintained, eFlow is a document imaging system used to and/or shared with another system. This description should specify scan invoices, as well as route invoices to what information is collected about each category of individual

designated users who will approve or reject

		invoices in the UFMS. The Electronic Workflow is an intermediary system that forwards scanned invoices to UFMS for payment processing. The application is used for capture of paper invoices via scanned image, indexing, workbench/workflow with Accounts Payable staff in AS, reporting/status of documents in workflow, creation and output of vendor letters. The types of invoice scanned into eFlow are commercial vendor related invoices such as (FedEx, Canon, UPS,) etc. The scanning of invoices is the process of uploading the invoice documents into the system for review and payment by the Accounts Payable staff. The approval of an invoice occurs in the review process in eFlow by staff, where the vendor invoice information is compared with the information in the UFMS, if vendor information is in agreement with the UFMS, the invoice is approved for payment. The rejection process occurs when the vendor invoice scanned into Electronic Workflow (eFlow), is being reviewed by Accounts Payable staff, where the information on the vendor invoice does not match what's in the UFMS at this point the invoice is rejected back to the vendor for updated vendor information. Electronic Workflow (eFlow) contains financial information about vendors such as: Vendor Name, Invoice Numbers, Account Numbers, Account Routing Numbers, and Vendor Business Address as a scanned image of a hard-copy invoice. ISIS was the original system name of the workflow application before it was changed to Electronic Workflow.
PTA - 10A:	Are records in the system retrieved by one or more PII data elements?	Yes
PTA - 11:	Does the system collect, maintain, use or share PII?	Yes
	PIA	
PIA - 1:	Indicate the type of PII that the system will collect or maintain	Name
		Mailing Address
		Financial Account Info
PIA - 2:	Indicate the categories of individuals about whom PII is collected, maintained or shared	Employees/ HHS Direct Contractors
	mantantod of Stratod	Vendors/Suppliers/Third-Party Contractors (Contractors other than HHS Direct Contractors)
PIA - 4:	For what primary purpose is the PII used?	The primary purpose for using PII in the eFlow system is to allow the employee or direct contractor to properly identify those vendor invoices for payment using (Vendorname, Address, Invoice Number, and Date). Within the eFlow system as a part of the business review process the employee/ direct contractor use these element captured on the invoices scanned into the eFlow system. In addition the AS, Accounts Payable uses the information to generate internal reports to learn the status of the vendor invoice as it relates to the payment process.
PIA - 5:	Describe any secondary uses for which the PII will be used (e.g. testing, training or research)	N/A
PIA - 7:	Identify legal authorities, governing information use and disclosure	Electronic Workflow captures images of invoice

PNA - 8: Provide the number, little, and URL of the Privacy Act System of Records Notice (SORN) hat is being used to cover the system of indicate whether a new or revised SORN is in development. Identify the sources of Pill in the system PNA - 9:		specific to the system and program	information which collection are covered by other Systems such as the UFMS which utilizes Forms required under 31 USC 3322, 31 CFR 209 and/or 210.
PIA - 9: Identify the sources of PII in the system Rooremment Sources Within the OPDIV Non-Government Sources Private Sector Identify the OMB information collection approval number or explain why it is not applicable. Is the PII shared with other organizations outside the system's Operating Division? PIA - 11: Describe the process in place to notify individuals that their personal information will be collected. If no prior notice is given, explain the reason PIA - 12: Is the submission of PII by individuals voluntary or mandatory? PIA - 13: Describe the method for individuals to opt-out of the collection or use of their PII. If there is no oplion to object to the information collection, provide a reason PIA - 14: Describe the process to notify and obtain consent from the individuals whose PII is in the system when major changes occur to the system (e.g., disclosure and/or data uses have changed since the notice at the time of original collection). Alternatively, describe why they cannot be notified or have their consent obtained PIA - 15: Describe the process in place for periodic reviews of PII contained when they believe their PII has been inappropriately obtained, used, or disclosed, or that the PII is inaccurate. If no process exists, explain why not PIA - 17: Identify who will have access to the PII in the system and the reason why they require access PIA - 17: Povide the reason of access for each of the groups identified in PIA - 17 Users Reasoning; Dela/Report validation Administrators Reasoning: Application and data maintenance conducted by direct contractors. Others Reasoning: PIA - 17: Provide the reason of access for each of the groups identified in PIA - 17 Users Reasoning; Dela/Report validation Administrators Reasoning: Application and data maintenance conducted by direct contractors. Others Reasoning: PIA - 17: Provide the reason of access for each of the groups identified in PIA - 17 Users Reasoning: Application maintenance Contractors Reasoning: Application and data maintenan	PIA - 8:	Records Notice (SORN) that is being used to cover the system or	
PIA - 9A: Identify the OMB information collection approval number or explain N/A why it is not applicable. PIA - 10: Is the PII shared with other organizations outside the system's Operating Division? PIA - 11: Describe the process in place to notify individuals that their personal information will be collected. If no prior notice is given, explain the reason PIA - 12: Is the submission of PII by individuals voluntary or mandatory? PIA - 13: Describe the method for individuals to opt-out of the collection or use of their PII. If there is no option to object to the information collection, provide a reason PIA - 14: Describe the method for individuals to opt-out of the collection or use of their PII. If there is no option to object to the information collection, provide a reason PIA - 15: Describe the process to notify and obtain consent from the individuals whose PII is in the system when major changes occut to the system (e.g., disclosure and/or data uses have changed since the notice at the time of original collection). Alternatively, describe why they cannot be notified or have their consent obtained PIA - 15: Describe the process in place to resolve an individual's concerns when they believe their PII has been inappropriately obtained, used, or disclosed, or that the PII is inaccurate. If no process exists, explain why not PIA - 16: Describe the process in place for periodic reviews of PII contained PIA - 17: Identify who will have access to the PII in the system and the reason why they require access to the PII in the system and the reason why they require access to the PII in the system and the reason of access for each of the groups identified in PIA - 17 Users Reasoning: Data/Report validation Administrators Reasoning: Application and user maintenance Conducted by direct constructions and data maintenance conducted by direct constructors. Others Reasoning:	PIA - 9:	•	Government Sources
PIA - 19. Identify the OMB information collection approval number or explain N/A why it is not applicable. PIA - 10: Describe the process in place to notify individuals that their personal information will be collected. If no prior notice is given, explain the reason PIA - 11: Describe the process in place to notify individuals that their personal information will be collected. If no prior notice is given, explain the reason PIA - 12: Is the submission of PII by individuals voluntary or mandatory? PIA - 13: Describe the method for individuals to opt-out of the collection or use of their PII. If there is no option to object to the information collection, provide a reason PIA - 14: Describe the process to notify and obtain consent from the individuals whose PII is in the system earl of adal uses have changed since the notice at the time of original collection). Alternatively, describe why they cannot be notified or have this consent obtained PIA - 15: Describe the process in place to resolve an individual's concerns when they believe their PII has been inappropriately obtained, used, or disclosed, or that the PII is inaccurate. If no process exists, explain why not PIA - 16: Describe the process in place to resolve an individual's concerns when they believe their PII has been inappropriately obtained, used, or disclosed, or that the PII is inaccurate. If no process exists, explain why not PIA - 17: Identify who will have access to the PII in the system and the reason why they require access to the PII in the system and the reason why they require access to the PII in the system and the reason of access for each of the groups identified in PIA - 17 Provide the reason of access for each of the groups identified in PIA - 17 Less Reasoning. Data/Report validation Administrators Reasoning. Application and data maintenance conducted by direct constructors. Others Reasoning:			Within the OPDIV
PIA - 10: Identify the OMB information collection approval number or explain N/A why it is not applicable. PIA - 10: Is the PIV shared with other organizations outside the system's Operating Division? PIA - 11: Describe the process in place to notify individuals that their personal information will be collected. If no prior notice is given, explain the reason PIA - 12: Is the submission of PII by individuals voluntary or mandatory? PIA - 13: Describe the method for individuals to opt-out of the collection or use of their PII. If there is no option to object to the information collection, provide a reason PIA - 13: Describe the process to notify and obtain consent from the information is uploaded in UFMS. The Electronic Workflow is an intermediary system that forwards scanned into PIA - 17: Describe the process in place to resolve an individual's concerns when they believe their PII has been inappropriately obtained, used, or disclosed, or that the PII is inaccurate. If no process exists, explain why not PIA - 16: Describe the process in place for periodic reviews of PII contained in the system of ensure the data's integrity, availability, accuracy and relevancy. Please address each element in your response. If no processes are in place, explain why not PIA - 17: Identify who will have access to the PII in the system and the reason why they require access PIA - 17: Provide the reason of access for each of the groups identified in PIA - 17 Users Reasoning: Data/Report validation Administrators Reasoning; Application and data maintenance conducted by direct contractors. Others Pressoning: PIA - 17: Provide the reason of access for each of the groups identified in PIA - 17 Users Reasoning: Data/Report validation Administrators Reasoning; Application and data maintenance conducted by direct contractors. PIA - 11: Describe the process in place to notify individuals that their personal information will be collected. If no prior notice is given, explain the reason PIA - 12: Is the submission of PII by individuals voluntary or mandatory? PIA - 13: Describe the method for individuals to opt-out of the collection or use of their PII. If there is no option to object to the information collection, provide a reason PIA - 14: Describe the process to notify and obtain consent from the individuals whose PII is in the system when major changes occur to the explored since the notice at the time of original collection. Alternatively, describe why they cannot be notified or have their consent obtained PIA - 15: Describe the process in place to resolve an individual's concerns when they believe their PII has been inappropriately obtained, used, or disclosed, or that the PII is inaccurate. If no process exists, explain why not PIA - 16: Describe the process in place to resolve an individual's concerns when they believe their PII has been inappropriately obtained, used, or disclosed, or that the PII is inaccurate. If no process exists, explain why not PIA - 16: Describe the process in place for periodic reviews of PII contained in the system of Record Notice (SORN) would be updated appropriately. Describe the process in place for periodic reviews of PII contained in the system of Record Notice (SORN) would be updated appropriately. Describe the process in place for periodic reviews of PII contained in the system for explain why not control and so work through the Computer Security incident Response Center (CSIRC) or other privacy and security staff. PIA - 17: Identify who will have access to the PII in the system and the reason why they require access PIA - 17a: Provide the reason of access for each of the groups identified in PIA - 17 Users Reasoning; Application maintenance Contractors Reasoning; Application and data maintenance conducted by direct contractors. Others Reasoning:	PIA - 9A:		N/A
personal information will be collected. If no prior notice is given, explain the reason PIA - 12: Is the submission of PII by individuals voluntary or mandatory? PIA - 13: Describe the method for individuals to opt-out of the collection or use of their PII. If there is no option to object to the information collection, provide a reason Describe the process to notify and obtain consent from the individuals whose PII is in the system when major changes occur to the system (e.g., disclosure and/or data uses have changed since the notice at the time of original collection). Alternatively, describe why they cannot be notified or have their consent when they believe their PII has been inappropriately obtained, used, or disclosed, or that the PII is inaccurate. If no process exists, explain why not PIA - 15: Describe the process in place to resolve an individual's concerns when they believe their PII has been inappropriately obtained, used, or disclosed, or that the PII is inaccurate. If no process exists, explain why not PIA - 16: Describe the process in place for periodicreviews of PII contained in the system of ensure the data's integrity, availability, accuracy and relevancy. Please address each element in your response. If no processes are in place, explain why not PIA - 17: Identify who will have access to the PII in the system and the reason why they require access PIA - 17: Provide the reason of access for each of the groups identified in PIA - 17 Users Reasoning; Data/Report validation Administrators Reasoning; Application and user maintenance Developers Reasoning: Application and data maintenance conducted by direct contractors. Otheres Reasoning:	PIA - 10:		No
PIA - 13: Describe the method for individuals to opt-out of the collection or use of their PII. If there is no option to object to the information collection, provide a reason In order for a vendor to be compensated for services that have been provided, they must first be registered in the System for Award Management (SAM). Once registered that information is uploaded into UFMS. The Electronic Workflow is an intermediary system that forwards scanned invoices (provided by the vendors) to UFMS for payment processing. As a result, vendors have the opportunity to opt-in to the collection information in order to receive payment, hence no need to provide an opt-out. No major changes are anticipated that would since the notice at the time of original collection). Alternatively, describe why they cannot be notified or have their consent obtained PIA - 15: Describe the process in place to resolve an individual's concerns when they believe their PII has been inappropriately obtained, used, or disclosed, or that the PII is inaccurate. If no process exist, explain why not wise processing place for periodicreviews of PII contained in the system to ensure the data's integrity, availability, accuracy and relevancy. Please address each element in your response. If no processes are in place, explain why not Identify who will have access to the PII in the system and the reason why they require access PIA - 17: Users Reasoning: Data/Report validation Administrators Reasoning: Application and user maintenance Developers Reasoning: Application maintenance Contractors Reasoning: Application and data maintenance conducted by direct contractors. Others Reasoning:	PIA - 11:	personal information will be collected. If no prior notice is given,	the invoices provided by vendors for payment tracking in UFMS. Vendors (including any individuals) complete and submit this information
use of their PIL. If there is no option to object to the information collection, provide a reason services that have been provided, they must first be registered in the System for Award Management (SAM). Once registered that information is uploaded into UFMS. The Electronic Workflow is an intermediary system that forwards scanned invoices (provided by the vendors) to UFMS for payment processing. As a result, vendors have the opportunity to opt-in to the collection of information in order to receive payment, hence no need to provide an opt-out. No major changes are anticipated that would affect individuals whose PII is in the system when major changes occur to the system (e.g., disclosure and/or data uses have changed since the notice at the time of original collection). Alternatively, describe why they cannot be notified or have their consent obtained PIA - 15: Describe the process in place to resolve an individual's concerns when they believe their PII has been inappropriately obtained, used, or disclosed, or that the PII is inaccurate. If no process exists, explain why not when they believe their PII has been inappropriately obtained, used, or disclosed, or that the PII is inaccurate. If no process exists, explain why not be system to ensure the data's integrity, availability, accuracy and relevancy. Please address each element in your response. If in the system to ensure the data's integrity, availability, accuracy and relevancy. Please address each element in your response. If no processes are in place, explain why not ledenthy they require access to the PII in the system and the reason why they require access to the PII in the system and the reason of access for each of the group's identified in PIA - 17 Users Reasoning: Data/Report validation Administrators Reasoning: Application and user maintenance Developers Reasoning: Application and data maintenance conducted by direct contractors. Others Reasoning:	PIA - 12:	Is the submission of PII by individuals voluntary or mandatory?	Voluntary
PIA-14: Describe the process to notify and obtain consent from the individuals whose PII is in the system when major changes occur to the system (e.g., disclosure and/or data uses have changed since the notice at the time of original collection). Alternatively, describe why they cannot be notified or have their consent obtained PIA-15: Describe the process in place to resolve an individual's concerns when they believe their PII has been inappropriately obtained, used, or disclosed, or that the PII is inaccurate. If no process exists, explain why not Describe the process in place for periodic reviews of PII contained in the system to ensure the data's integrity, availability, accuracy and relevancy. Please address each element in your response. If no processes are in place, explain why not PIA-17: Identify who will have access to the PII in the system and the reason why they require access PIA-17: PIA-17: Describe the process in ontify and obtain consent from the under individuals individuals individual using the contact information provided, and the System of Record Notice (SORN) would be able to contact the Program Support Center (PSC) Privacy Act Officer if they believe their information has been misused. The vendor could also work through the Computer Security Incident Response Center (CSIRC) or other privacy and security staff. The Electronic Workflow is updated with a manual feed from the UFMS that updates the commercial vendor information, UFMS is the financial system of record, the use of any PII is transactional. Users Administrators Developers Contractors Provide the reason of access for each of the groups identified in PIA-17 Users Reasoning: Data/Report validation Administrators Reasoning: Application and user maintenance Developers Reasoning: Application maintenance Contractors Reasoning: Application and data maintenance conducted by direct contractors. Others Reasoning:	PIA - 13:	use of their PII. If there is no option to object to the information	services that have been provided, they must first be registered in the System for Award Management (SAM). Once registered that information is uploaded into UFMS. The Electronic Workflow is an intermediary system that forwards scanned invoices (provided by the vendors) to UFMS for payment processing. As a result, vendors have the opportunity to opt-in to the collection of information in order to receive
when they believe their PII has been inappropriately obtained, used, or disclosed, or that the PII is inaccurate. 	PIA - 17B:	Select the type of contractor	

PIA - 18:	Describe the administrative procedures in place to determine which system users (administrators, developers, contractors, etc.) may access PII	All Electronic Workflow (eFlow) employees are provided a user account to access the eFlow system. For a user such as (administrators, developers) to gain elevated access to PII information within the eFlow system, the employees supervisor must submit a request to have an employee's permissions elevated in eFlow to access PII data.
PIA - 19:	Describe the technical methods in place to allow those with access to PII to only access the minimum amount of information necessary to perform their job	
PIA - 20:	Identify training and awareness provided to personnel (system owners, managers, operators, contractors and/or program managers) using the system to make them aware of their responsibilities for protecting the information being collected and maintained	Financial Management Portfolio (FMP) employees and contractors are required to complete the annual HHS Privacy Awareness and Information System Security Awareness Training.
PIA - 21:	Describe training system users receive (above and beyond general security and privacy awareness training).	All individuals with access to eFlow must accept and adhere to the HHS-Rules of Behavior that appears on the login page for the eFlow system.
PIA - 23:	Describe the process and guidelines in place with regard to the retention and destruction of PII. Cite specific NARA records retention schedule(s) and include the retention period(s)	General Records Schedule (GRS) 1.1 item 10 - Financial transaction records. Temporary. Destroy 6 years after final payment or cancellation, but longer retention is authorized if required for business use. DAA-GRS- 2013-0003-0001. GRS Item 3.1 item 10 - Infrastructure project records. Temporary. Destroy 5 years after project is terminated, but longer retention is authorized if required for business use. DAA-GRS- 2013-0005- 0006.
PIA - 24:	Describe how the PII will be secured in the system using administrative, technical, and physical controls. Please address each element in your response	Technical and Physical controls are in place to ensure the security of the information. These include an up-to-date System Security Plan, Contingency Plan, regular off site backup of the data, and yearly security awareness training for all personnel. Specific protection for PlI include: 1- Electronic data is password protected 2- Access to electronic data is role-based 3- Documents are locked in file cabinet accessible only to management and administrators
PIA - 27:	Does the website use web measurement and customization technology?	No
