

## Copy PIA (Privacy Impact Assessment)

Do you want to copy this PIA ?

Please select the user, who would be submitting the copied PIA.

## Instructions

Review the following steps to complete this questionnaire:

- 1) Answer questions.** Select the appropriate answer to each question. Question specific help text may be available via the  icon. If your answer dictates an explanation, a required text box will become available for you to add further information.
- 2) Add Comments.** You may add question specific comments or attach supporting evidence for your answers by clicking on the  icon next to each question. Once you have saved the comment, the icon will change to the  icon to show that a comment has been added.
- 3) Change the Status.** You may keep the questionnaire in the "In Process" status until you are ready to submit it for review. When you have completed the assessment, change the Submission Status to "Submitted". This will route the assessment to the proper reviewer. Please note that all values list questions must be answered before submitting the questionnaire.
- 4) Save/Exit the Questionnaire.** You may use any of the four buttons at the top and bottom of the screen to save or exit the questionnaire. The button allows you to complete the questionnaire. The button allows you to save your work and close the questionnaire. The button allows you to save your work and remain in the questionnaire. The button closes the questionnaire without saving your work.

### Acronyms

ATO - Authorization to Operate  
CAC - Common Access Card  
FISMA - Federal Information Security Management Act  
ISA - Information Sharing Agreement  
HHS - Department of Health and Human Services  
MOU - Memorandum of Understanding  
NARA - National Archives and Record Administration  
OMB - Office of Management and Budget  
PIA - Privacy Impact Assessment  
PII - Personally Identifiable Information  
POC - Point of Contact  
PTA - Privacy Threshold Assessment  
SORN - System of Records Notice  
SSN - Social Security Number  
URL - Uniform Resource Locator

## General Information

<b>PIA Name:</b>	CDC - ALS - QTR2 - 2023 - CDC6770130	<b>PIA ID:</b>	1674626
<b>Name of Component:</b>	CDC - Amyotrophic Lateral Sclerosis Web Portal	<b>Name of ATO Boundary:</b>	Amyotrophic Lateral Sclerosis Web Portal
<b>Overall Status:</b>		<b>PIA Queue:</b>	
<b>Submitter:</b>		<b># Days Open:</b>	302
<b>Submission Status:</b>	Re-Submitted	<b>Submit Date:</b>	10/4/2023
<b>Next Assessment Date:</b>	03/22/2027	<b>Expiration Date:</b>	3/22/2027
<b>Office:</b>		<b>OPDIV:</b>	CDC
<b>Security Categorization:</b>	Moderate	<b>OpDiv PIA ID:</b>	CDC6770130
<b>Legacy PIA ID:</b>		<b>Make PIA available to Public?:</b>	Yes
<b>1:</b>	Identify the Enterprise Performance Lifecycle Phase of the system.		Operations and Maintenance
<b>2:</b>	Is this a FISMA-Reportable system?		Yes
<b>3:</b>	Does the system have or is it covered by a Security Authorization to Operate (ATO)?		Yes
<b>4:</b>	ATO Date or Planned ATO Date.		8/29/2023
<b>5:</b>	Is the system or electronic information collection, agency or contractor operated?		Agency

## PTA

### PTA

<b>PTA - 2:</b>	Indicate the following reason(s) for this PTA. Choose from the following options.	PIA Validation (PIA Refresh)
<b>PTA - 2A:</b>	Describe in further detail any changes to the system that have occurred since the last PIA.	None
<b>PTA - 3:</b>	Is the data contained in the system owned by the agency or contractor?	Agency
<b>PTA - 4:</b>	Please give a brief overview and purpose of the system by describing what the functions of the system are and how the system carries out those functions.	<p>The purpose of the Amyotrophic Lateral Sclerosis (ALS) Web Portal is to obtain more complete information on the likely prevalence of ALS ("Lou Gehrig's Disease"), and to better describe the demographic characteristics (age, race, sex, and geographic location) of those with ALS. The secondary goal of the surveillance system is to collect additional information on potential risk factors for ALS including, but not limited to, family history of ALS, smoking history, and military service.</p> <p>These risk factors were chosen because they are the only known and consistently recognized risk factors for ALS, and we want to obtain baseline assessment of basic risk factors on the registry participants. This information could then be used to design studies about what causes ALS.</p>

<b>PTA - 5:</b>	List and/or describe all the types of information that are collected (into), maintained, and/or shared in the system regardless of whether that information is PII and how long that information is stored.	<p>The ALS Web Portal will collect, maintain, or share the following types of information:</p> <p>Patient Registration (Name, Race, Gender, Date of Birth [month/year], Email, City, State, Country, Social Security Number [SSN])  Security Questions (First Car, Favorite Color, First Pet Name, etc.)  Patient Surveys (Military Status, Health Notes, Employment, Demographics, Work history, Alcohol &amp; Smoking Consumption, Family History, etc.)  Information Requests (Name, Address, Email, Phone Number).</p> <p>During patient registration, SSN [last 5 digits] and date of birth are only stored in the system temporarily and moved to another server daily. ALS Patients cannot retrieve or view their SSN after it is collected.</p> <p>ALS authenticates external (public) users with username (user's email address) and password which are stored in the system. Internal users are authenticated via CDC's Active Directory (AD). AD is a separate system with its own PIA.</p>
<b>PTA - 5A:</b>	Are user credentials used to access the system?	Yes, but the user credentials are maintained in a separate system (e.g., AD, AMS) and not collected or maintained by this system. The system providing credentials is
<b>PTA - 5B:</b>	Please identify the type of user credentials used to access the system.	<p>Non-HHS User Credentials</p> <p>Username</p> <p>Password</p>

<b>PTA - 6:</b>	Describe why all types of information is collected (into), maintained, and/or shared with another system. This description should specify what information is collected about each category of individual.	<p>The purpose of the ALS Web Portal is to provide users with more information regarding the disease and to facilitate research for medical professionals and individual researchers. Researchers may request de-identified survey data for their own research. Identifiable data is shared with external researchers.</p> <p>The system collects registration information, surveys, and security questions from users of the site. These users are members of the public with ALS and are over 18 years of age. Registration information is used to uniquely identify participating individuals in the registry, for account support, and to contact the patients. Security questions are used if the patients forget their passwords. Surveys data is used to identify risk factors for ALS and inform research looking into the cause(s) of ALS.</p> <p>Patient Registration (Name, Race, Gender, Date of Birth [month/year], Email, City, State, Country, Social Security Number [SSN])  Security Questions (First Car, Favorite Color, First Pet Name, etc.)  Patient Surveys (Military Status, Health Notes, Employment, Demographics, Work history, Alcohol &amp; Smoking Consumption, Family History, etc.)  Information Requests (Name, Address, Email, Phone Number) are collected.</p> <p>The system collects information request data in order to mail brochures. This data is collected from members of the general public and is not directed at children.</p> <p>Data is regularly retrieved from the system using ALS patient name, email address, or phone number for account maintenance or user verification. SSN is also used to match with data in other systems so that ALS patients are not double counted.</p> <p>ALS authenticates external (public) users with username and password which are stored in the system. The username is the user's email address. Internal user are authenticated via CDC's Active Directory (AD) AD is a separate system covered by its own PIA.</p>
<b>PTA - 7:</b>	Does the system collect, maintain, use or share PII?	Yes
<b>PTA - 7A:</b>	Does this include Sensitive PII as defined by HHS?	Yes
<b>PTA - 8:</b>	Does the system include a website or online application?	Yes
<b>PTA - 8A:</b>	Are any of the URLs listed accessible by the general public (to include publicly accessible log in and internet websites/online applications)?	Yes

<b>PTA - 9:</b>	Describe the purpose of the website, who has access to it, and how users access the web site (via public URL, log in, etc.). Please address each element in your response.	<p><a href="http://wwwn.cdc.gov/als">http://wwwn.cdc.gov/als</a></p> <p>The purpose of the ALS Web Portal is to provide users with more information regarding the disease and to facilitate research for medical professionals and individual researchers. Researchers may request de-identified survey data for their own research. Identifiable data is shared with external researchers.</p> <p>The system collects registration information, surveys, and security questions from users of the site. These users are members of the public with ALS and are over 18 years of age. Registration information is used to uniquely identify participating individuals in the registry, for account support, and to contact the patients. Security questions are used if the patients forget their passwords. Surveys data is used to identify risk factors for ALS and inform research looking into the cause(s) of ALS.</p> <p>Patient Registration (Name, Race, Gender, Date of Birth [month/year], Email, City, State, Country, Social Security Number [SSN])  Security Questions (First Car, Favorite Color, First Pet Name, etc.)  Patient Surveys (Military Status, Health Notes, Employment, Demographics, Work history, Alcohol &amp; Smoking Consumption, Family History, etc.)  Information Requests (Name, Address, Email, Phone Number) are collected.</p> <p>The system collects information request data in order to mail brochures. This data is collected from members of the general public and is not directed at children.</p> <p>Data is regularly retrieved from the system using ALS patient name, email address, or phone number for account maintenance or user verification. SSN is also used to match with data in other systems so that ALS patients are not double counted.</p> <p>ALS authenticates external (public) users with username and password which are stored in the system. The username is the user's email address. Internal user are authenticated via CDC's Active Directory (AD) AD is a separate system covered by its own PIA.</p>
<b>PTA - 10:</b>	Does the website have a posted privacy notice?	Yes
<b>PTA - 11:</b>	Does the website contain links to non-federal government websites external to HHS?	Yes
<b>PTA - 11A:</b>	Is a disclaimer notice provided to users that follow external links to websites not owned or operated by HHS?	Yes
<b>PTA - 12:</b>	Does the website use web measurement and customization technology?	Yes
<b>PTA - 12A:</b>	Select the type(s) of website measurement and customization technologies in use and if it is used to collect PII.	Session Cookies - Does Not Collect PII

<b>PTA - 13:</b>	Does the website have any information or pages directed at children under the age of thirteen?	No
<b>PTA - 13A:</b>	Does the website collect PII from children under the age thirteen?	
<b>PTA - 13B:</b>	Is there a unique privacy policy for the website and does the unique privacy policy address the process for obtaining parental consent if any information is collected?	
<b>PTA - 14:</b>	Does the system have a mobile application?	No
<b>PTA - 14A:</b>	Is the mobile application HHS developed and managed or a third-party application?	
<b>PTA - 15:</b>	Describe the purpose of the mobile application, who has access to it, and how users access it. Please address each element in your response.	
<b>PTA - 16:</b>	Does the mobile application/ have a privacy notice?	
<b>PTA - 17:</b>	Does the mobile application contain links to non-federal government websites external to HHS?	
<b>PTA - 17A:</b>	Is a disclaimer notice provided to users that follow external links to resources not owned or operated by HHS?	
<b>PTA - 18:</b>	Does the mobile application use measurement and customization technology?	
<b>PTA - 18A:</b>	Describe the type(s) of measurement and customization technologies or techniques in use and what information is collected.	
<b>PTA - 19:</b>	Does the mobile application have any information or pages directed at children under the age of thirteen?	
<b>PTA - 19A:</b>	Does the mobile application collect PII from children under the age thirteen?	
<b>PTA - 19B:</b>	Is there a unique privacy policy for the mobile application and does the unique privacy policy address the process for obtaining parental consent if any information is collected?	
<b>PTA - 20:</b>	Is there a third-party website or application (TPWA) associated with the system?	No
<b>PTA - 21:</b>	Does this system use artificial intelligence (AI) tools or technologies?	No

<b>PIA</b>		
<b>PIA</b>		
<b>PIA - 1:</b>	Indicate the type(s) of personally identifiable information (PII) that the system will collect, maintain, or share.	Truncated SSN Name Email Address Phone numbers Medical records (PHI) Military Status Date of Birth Vehicle Identifiers Mailing Address Employment Status User Credentials Other - Free text Field - Security questions, Demographics information.

<b>PIA - 2:</b>	Indicate the categories of individuals about whom PII is collected, maintained or shared.	Patients Members of the public
<b>PIA - 3:</b>	Indicate the approximate number of individuals whose PII is maintained in the system.	Above 2000
<b>PIA - 4:</b>	For what primary purpose is the PII used?	The PII is used to facilitate research for medical professionals and individual researchers.
<b>PIA - 5:</b>	Describe any secondary uses for which the PII will be used (e.g. testing, training or research).	The SSN is also used as a quality check to prevent the submission of duplicate records.
<b>PIA - 6:</b>	Describe the function of the SSN, Truncated SSN, and/or Taxpayer ID.	The Registry is only asking for the last 5 digits of the Social Security number, not the entire 9-digit number. Because the Registry identifies cases of ALS from multiple sources, including from Medicare and the Veterans Administration, the Registry needs to make sure people are not counted twice. The only way to be sure that two people with the same or similar names are not the same person is with a partial Social Security number.  The SSN is therefore used as a quality check to prevent the submission of duplicate records.
<b>PIA - 6A:</b>	Cite the legal authority to use the SSN, Truncated SSN, and/or Taxpayer ID.	E.O. 9397, as amended by E.O. 13478.
<b>PIA - 7:</b>	Identify legal authorities governing information use and disclosure specific to the system and program.	ALS Registry Act, Public Law No: 110-373
<b>PIA - 8:</b>	Are records in the system retrieved by one or more PII data elements?	Yes
<b>PIA - 8A:</b>	Please specify which PII data elements are used to retrieve records.	The SSN is used as a quality check to prevent the submission of duplicate records.  The Registry is only asking for the last 5 digits of the Social Security number, not the entire 9 digit number. Because the Registry identifies cases of ALS from multiple sources, including from Medicare and the Veterans Administration, the Registry needs to make sure people are not counted twice. The only way to be sure that two people with the same or similar names are not the same person is with a partial Social Security number.
<b>PIA - 8B:</b>	Provide the number, title, and URL of the Privacy Act System of Records Notice (SORN) that is being used to cover the system or indicate whether a new or revised SORN is in development.	Privacy Act System Notice <b>09-19-0001</b>  <b>09-19-0001, Records of Persons Exposed or Potentially Exposed to Toxic or Hazardous Substances.</b>

<b>PIA - 9:</b>	Identify the sources of PII in the system.	Directly from an individual about whom the information pertains  Online  Non-Government Sources  Members of the Public
<b>PIA - 10:</b>	Is there an Office of Management and Budget (OMB) information collection approval number?	Yes
<b>PIA - 10A:</b>	Provide the information collection approval number.	OMB 0923-0041, 05/31/2026
<b>PIA - 10B:</b>	Identify the OMB information collection approval number expiration date.	5/31/2026
<b>PIA - 10C:</b>	Explain why an OMB information collection approval number is not required.	N/A
<b>PIA - 11:</b>	Is the PII shared with other organizations outside the system's Operating Division?	No
<b>PIA - 11A:</b>	Identify with whom the PII is shared or disclosed.	
<b>PIA - 11B:</b>	Please provide the purpose(s) for the disclosures described in PIA - 11A.	
<b>PIA - 11C:</b>	List any agreements in place that authorizes the information sharing or disclosure (e.g., Computer Matching Agreement (CMA), Memorandum of Understanding (MOU), or Information Sharing Agreement (ISA)).	
<b>PIA - 11D:</b>	Describe process and procedures for logging/tracking/accounting for the sharing and/or disclosing of PII. If no process or procedures are in place, please explain why not.	
<b>PIA - 12:</b>	Is the submission of PII by individuals voluntary or mandatory?	Voluntary
<b>PIA - 12A:</b>	If PII submission is mandatory, provide the specific legal requirement that requires individuals to provide information or face potential civil or criminal penalties.	
<b>PIA - 13:</b>	Describe the method for notifying individuals that their information will be collected and how they can opt-out of the collection or use of their PII. If there is no option to object to the information collection, provide a reason.	There is a customized Consent Form that allows ALS patients to agree or disagree with Centers for Disease Control and Prevention/Agency for Toxic Substance and Disease Registry-ATSDR's terms. The decision of the patient is voluntary and will determine whether or not an account is created.
<b>PIA - 14:</b>	Describe the process to notify and obtain consent from the individuals whose PII is in the system when major changes occur to the system (e.g., disclosure and/or data uses have changed since the notice at the time of original collection). Alternatively, describe why they cannot be notified or have their consent obtained.	In the event of significant system changes, a modified SORN would be published in the Federal Register. Further, the current PIA would be modified and published addressing the changes and identifying any new, resulting privacy considerations.
<b>PIA - 15:</b>	Describe the process in place to resolve an individual's concerns when they believe their PII has been inappropriately obtained, used, or disclosed, or that the PII is inaccurate. If no process exists, explain why not.	Users can contact ATSDR via the contact information provided on the ALS website if any issues occur. Individuals should reasonably identify the record and specify the information being contested, the corrective action sought, and the reasons for requesting the correction, along with supporting information to show how the record is inaccurate, incomplete, untimely, or irrelevant.

<b>PIA - 16:</b>	Describe the process in place for periodic reviews of PII contained in the system to ensure the data's integrity, availability, accuracy and relevancy. Please address each element in your response. If no processes are in place, explain why not.	The data is downloaded and cleaned annually. It is reviewed for accuracy – duplicates are removed, all fields are reviewed for relevancy and consistency. Statisticians check all data against these requirements and a “clean” file is produced. This file then is provided to an independent Statistician for validation. If any discrepancies are found the data is reviewed manually and any discrepancies are resolved. If changes or updates to the database is required those changes are completed based on the validation process. This cleaned and validated file is now the official file.
<b>PIA - 17:</b>	Identify who will have access to the PII in the system.	Administrators Others
<b>PIA - 17A:</b>	Select the type of contractor.	
<b>PIA - 17B:</b>	Do contracts include Federal Acquisition Regulation (FAR) and other appropriate clauses ensuring adherence to privacy provisions and practices?	
<b>PIA - 18:</b>	Provide the reason why each of the groups identified in PIA - 17 needs access to PII.	Administrators need access to maintain data.  Statisticians need access to analyze data.
<b>PIA - 19:</b>	Describe the administrative procedures in place to determine which system users (administrators, developers, contractors, etc.) may access PII.	Role-based access procedures are used to determine who will have access to PII in the system. Role based access is determined and approved by Business steward. Currently PII can be accessed by DATA Base admins (DBA) and Data steward.
<b>PIA - 20:</b>	Describe the technical methods in place to allow those with access to PII to only access the minimum amount of information necessary to perform their job.	The least privilege method is used to ensure that those with access to PII are only able to access the minimum amount necessary to perform their job responsibilities.
<b>PIA - 21:</b>	Identify the general security and privacy awareness training provided to system users (system owners, managers, operators, contractors and/or program managers) using the system to make them aware of their responsibilities for protecting the information being collected and maintained.	Personnel are required to undergo Annual Security and Privacy Awareness Training (SAT).
<b>PIA - 22:</b>	Describe the training system users receive (above and beyond general security and privacy awareness training).	None

**PIA - 23:**

Describe the process and guidelines in place with regard to the retention and destruction of PII. Cite specific National Archives and Records Administration (NARA) records retention schedule(s) and include the retention period(s).

The Legal authority of the ALS National Registry is Public Law No: 110-373, "ALS Registry Act".

Records are retained, disposed, stored, handled, and viewed in accordance with CDC's Scientific and Research Project Records Control Schedule. Current procedures allow the system manager to keep the records for 20 years unless needed for further study. Registry records will be actively maintained as long as funding is provided for by law.

Retention periods vary depending on the type of record. Source documents for computer tapes or disks are securely disposed of when no longer needed in the study as determined by the system manager, and as provided in the signed consent form, as appropriate.

**PIA - 24:**

Describe how the PII will be secured in the system using administrative, technical, and physical controls. Please address each element in your response.

Administrative: Users are assigned unique roles and privileges depending on their user status. ALS patients are able to create an "ALS Patient" account, while all other public users are required to create a "Public" account. The ALS "System Administrator" can manage patient and public accounts and download data. ALS Patients must also pass a validation process before creating an ALS Patient Account. The validation process is a series of questions that determine if a patient has ALS. The general public can create a Public account without going through a validation process.

Technical: PII fields will be masked on the Graphical User Interface (GUI) depending on the sensitivity of the data. For example the last 5 numbers of the SSN will be masked. All PII including SSN will be encrypted using CDC approved methods. To encrypt/decrypt data in database columns designed to hold PII data, a user must be given access to open and close a symmetric key.

Physical Controls: Production and test servers are stored in a server room secured by the CDC. Access tools are in place to secure entry into CDC buildings (Guards, ID Badges, Key Card, Cipher Locks, and Closed Circuit TV).

## Review & Comments

### Privacy Analyst Review

<b>OpDiv Privacy Analyst Review Status:</b>	Approved	<b>Privacy Analyst Review Date:</b>	10/6/2023
<b>Privacy Analyst Comments:</b>	Re-approved post-SOP comment	<b>Privacy Analyst Days Open:</b>

### Comments

Question Name	Submitter	Date	Comment	Attachment
PIA - 1	Data Feed Service, piafrmcdc	6/29/2023	Per the previously approved PIA and	

the recently approved PTA, the following data elements are also processed by this system: "Race, Gender, (First Car, Favorite Color, First Pet Name, Demographics, Work history, Alcohol & Smoking Consumption, Family History, User credentials". Please include them here and change "SSN" to "truncated SSN" to match the processing of the last five digits.

PIA - 8B	Data Feed Service, piafrmcdc 6/29/2023	Please remove the hyperlink and include the following:  09-19-0001, Records of Persons Exposed or Potentially Exposed to Toxic or Hazardous Substances
PIA - 19	Data Feed Service, piafrmcdc 6/29/2023	Please specify <b>who</b> determines the role-based access procedures and who has access to PII. Please see HHS Archer Handbook for further guidance: "A system user guide may indicate who should have access to what PII for what reason and the process used to determine whether a request for access should be granted."
PIA - 20	Data Feed Service, piafrmcdc 6/29/2023	Please remove reference to specific encryption technologies (SQL), as this document can be made publicly available.
PIA - 23	Data Feed Service, piafrmcdc 6/29/2023	Please provide updated legal authorities as those referenced are outdated. For further assistance, please reach out to records@cdc.gov.
PIA - 1	Data Feed Service, piafrmcdc 7/31/2023	Please include all elements listed in the previously approved PIA and PTA 5  Patient Registration (Name, Race, Gender, Date of Birth [month/year], Email, City, State, Country, Social Security Number [SSN]) Security Questions (First Car, Favorite Color, First Pet Name, etc.) Patient Surveys (Military Status, Health Notes, Employment, Demographics, Work history, Alcohol & Smoking Consumption, Family History, etc.) Information Requests (Name,

Address, Email, Phone Number).

PIA - 5	Data Feed Service, piafrmc dc 7/31/2023	If this is the main use of the SSN, then please include in PIA 6. Please include all incidental uses for all PII (i.e., research, communication, etc)
PIA - 13	Data Feed Service, piafrmc dc 7/31/2023	ATSDR is not previously defined in this document. Please define all acronyms upon first use.
PIA - 19	Data Feed Service, piafrmc dc 7/31/2023	Please remove names of individuals and limit to business titles. My apologies for not clarifying in the previous comment.
PIA - 24	Data Feed Service, piafrmc dc 7/31/2023	Please define GUI.
PIA - 23	Data Feed Service, piafrmc dc 8/15/2023	Should the citation be referencing GRS instead of GSR? Also, if the citation should be GRS, please update the citation number as well.
PIA - 23	BLAND, CRYSTAL 9/7/2023	GRS 20.11 and GRS 23 are obsolete and replace by GRA 5.1 and 5.2. Please update accordingly.
PIA - 1	Data Feed Service, piafrmc dc 9/30/2024	This System has been migrated within the OCIO ISB Infrastructure Services authorization boundary. All future updates should be made via the new Sub- Component application.
