| <b>PTA 04:</b>  | Please give a brief overview of the purpose of the system by describing what the functions of the system are and how the system carries out those functions in support of HHS.                       | The Presidential American Fitness Challenge and Centralized Website Hub (AFCCWH) system is built to support a nationwide initiative aimed at promoting physical activity, health, and wellness among Americans of all ages (young people). The Office of the Assistant Secretary for Health (OASH) will develop a challenge competition highlighting the importance of physical activity inspiring America's youth to be active. This website will provide information about the competition, registration and participation tools, educational resources, real-time progress tracking, and community engagement features. Through this nationwide initiative, HHS will motivate young people to develop lifelong health habits that support strength, confidence, and overall wellbeing. |
| <b>PTA 05:</b>  | List and/or describe all the types of information that are collected, maintained, and/or shared by the system regardless of whether that information is PII and how long that information is stored. | PII about individual participate in the Presidential American Fitness Challenge is retrieved by personal identifier such as name, email address, birth date and these records are maintained in the system about these individual participants and is not shared with external systems and only with designated personnel from the schools whom have individual's that participate in the challenge from the designated school. The Presidential American Fitness Challenge information is generally subject to federal records retention schedules that mandate a retention period of at least 3 years, up to 6 years after the file is closed or the action is completed.                                                                                                               |

| <b>PIA 40:</b> | Describe the administrative procedures in place to determine which system users (administrators, developers, contractors, etc.) may access PII.                                                                                                                             | <p>Access is governed by the HHS Policy for Information Systems Security and Privacy and the following administrative controls:</p> <p>Role-Based Access Control (RBAC): Access is not granted by default. It is assigned based on the "Need to Know" principle. Roles are defined by the Program Manager and approved by the System Owner.</p> <p>Onboarding/Vetting: All personnel must read and sign the HHS Rules of Behavior (RoB) before being granted credentials.</p> <p>Account Auditing: Administrator and Developer accounts are reviewed quarterly to ensure that individuals who have changed roles or left the project have had their access revoked immediately.</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |
| <b>PIA 41:</b> | Describe the technical methods in place to allow those with access to PII to access only the minimum amount of information necessary to perform their job.                                                                                                                  | <p>The system employs a "Defense in Depth" strategy to ensure that access to PII is restricted to the minimum amount necessary for a user's specific job function. The following technical methods are implemented:</p> <p>1. Role-Based Access Control (RBAC)<br/>The application architecture utilizes a granular Role Based Access Control (RBAC) model. Permissions are not assigned to individuals, but to defined functional roles.</p> <p>Participants (Public): Access is limited to their own unique record via a secure "My Profile" portal. They cannot query or view PII of other participants.</p> <p>System Administrators: Granted high-level access for account management but restricted from bulk data exports unless a secondary "Dual-Authorized" approval is triggered.</p> <p>2. AWS Identity and Access Management (IAM)<br/>Multi-Factor Authentication (MFA) integrated with the AFCCWH WordPress VIP (WPVIP) cloud system: Selected AFCCWH system selected credentialed external general users and privileged users (Administrators, Developers, and Contractors) stored within the system are required to use their AFCCWH credentials stored within the system's AWS IAM tool and an MFA (e.g., Login.gov for credentialed external users) or Two Factor Authentication (2FA) tokens to access and authenticate to the AFCCWH system.</p> |
| <b>PIA 42:</b> | Identify the general security and privacy awareness training provided to system users (system owners, managers, operators, contractors and/or program managers) to make them aware of their responsibilities for protecting the information being collected and maintained. | Current trainings include: Information Systems Security Awareness Privacy Awareness Training, Breach Training, Privileged User Rules of Behavior training, and Incident Response training                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |
| <b>PIA 43:</b> | Describe the training system users receive above and beyond general security and privacy awareness training.                                                                                                                                                                | Privileged User Rules of Behavior and Breach training                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |

| <p><b>PIA 44:</b></p> | <p>Describe the process and guidelines in place for the retention and destruction of PII. Cite specific National Archives and Records Administration (NARA) records retention schedule(s) and include the retention period(s).</p> | <p>Data is retained and never destroyed. Following is the General Records Schedule (GRS) in use, that applies to the Personally Identifiable Information (PII) maintained in this system; GRS 3.1. Item 012, Disposition Authority: DAA-GRS-2013-0005-0008. Special purpose computer programs and applications - Computer software programs or applications that are developed by the agency or under its direction solely to use or maintain a master file or database authorized for disposal in a GRS item or a National Archives and Records Administration (NARA) approved records schedule. Disposition Instructions - Delete when related master file or database has been deleted, but longer retention is authorized if required for business use. Note: Computer software needs to be kept as long as needed to ensure access to, and use of, the electronic records in the system throughout the authorized retention period to comply with 36 CFR Sections 1236.10, 1236.12, 1236.14, and 1236.20.</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |
| <p><b>PIA 45:</b></p> | <p>Describe how the PII will be secured in the system using administrative, technical, and physical controls. Please address each element in your response.</p>                                                                    | <p>1. Administrative Controls<br/>Rules of Behavior (RoB): Users must sign an HHS-approved RoB agreement annually, acknowledging their responsibility to protect PII and the penalties for unauthorized disclosure.</p> <p>Privacy Training: Mandatory annual Information Systems Security and Privacy Awareness (ISSPA) training is required for all account holders.</p> <p>Incident Response Plan: A formal breach notification process is in place. In the event of a PII leak, the HHS Computer Security Incident Response Center (CSIRC) is notified within one hour.</p> <p>2. Technical Controls<br/>Multi-Factor Authentication (MFA): Access to the backend database requires PIV card authentication or an equivalent NIST-compliant MFA method.</p> <p>Audit Logging and Monitoring: The system generates automated audit trails that record every access, modification, or deletion of PII. These logs are reviewed weekly for suspicious activity.</p> <p>Intrusion Detection/Prevention Systems (IDS/IPS): The Hub is protected by firewalls and monitoring tools that identify and block unauthorized attempts to scrape data or bypass authentication.</p> <p>3. Physical Controls<br/>Physical controls protect the actual hardware and facilities where the data resides.</p> <p>Secure Data Centers: The system is hosted in a FedRAMP-authorized cloud environment. This facilities require biometric access, 24/7 security guards, and video surveillance (CCTV).</p> <p>Hardware Security: Direct physical access to servers is restricted to a limited number of authorized data center technicians.</p> |

| PTA 05        | Data Feed Service,<br>pta_pia_OS_Release | 2/24/2026 | Please include the length of time that the information will be stored.                                                                                                                                                                                                                                                                                    |            |
| PTA 06        | Data Feed Service,<br>pta_pia_OS_Release | 2/24/2026 | <p>It is indicated that credentials are also stored by the system. Please also list that HHS employee credentials are stored for access purposes (if that is correct).</p> <p>Please also indicate if the information is shared in any way.</p>                                                                                                           |            |
| PIA 22        | Data Feed Service,<br>pta_pia_OS_Release | 2/24/2026 | Contact information, including e-mail address, are mention in the response to PIA-25. If e-mail is collected and used by the system, please select it in this response as well.                                                                                                                                                                           |            |
| PIA 36        | Data Feed Service,<br>pta_pia_OS_Release | 2/24/2026 | Please define the acronyms CSIRC and OASH on first use within this response.                                                                                                                                                                                                                                                                              |            |
| PTA 05A       | Data Feed Service,<br>pta_pia_OS_Release | 2/24/2026 | The response to PIA-41 mentions the usage of IAM for multi-factor authentication. Are the credentials stored in IAM or within the system itself? Please update this response if the credentials are store in IAM, otherwise leave as is. If credentials are stored in IAM, then the selection would also have to be removed from question PIA-22 as well. |            |
| PIA 23        | Data Feed Service,<br>pta_pia_OS_Release | 2/24/2026 | If credentials for employees are stored, please also select HHS Employees for this reponse.                                                                                                                                                                                                                                                               |            |
| PTA 05        | Data Feed Service,<br>pta_pia_OS_Release | 3/4/2026  | Please state specifically what type of PII (e.g., name, email address....) is collected, maintained, and/or shared by the system. Additionally, based on the responses provided in the <b>PIA 22</b> , 'Date of Birth' should also be included here.                                                                                                      |            |
