OF HEALTH AND
HUMAN SERVICES

OVERVIEW OF TALKS

1. National Adult Immunization Plan (NAIP) and Implementation of the NAIP – the “priorities”
2. Preview of adult coverage estimates
3. *Quality and Performance Measures – the IHS experience*
4. Adult financing, costing, and payment: the “*business case*” for providing adult vaccinations
5. 2016 – National Adult and Influenza Immunization Summit

HUMAN SERVICES

THE NATIONAL ADULT IMMUNIZATION PLAN

- ...Was created to protect public health through vaccination of all adults,
- ...Represents the perspectives of diverse stakeholders,
- ...Is national in scope and aligned with other HHS priorities,
- ...Addresses 2012 NVAC Recommendation

DEVELOPMENT OF THE NAIP

Environmental scan

Reviewed literature from the last 10 years

Stakeholder engagement

Key stakeholders convened to provide high-level feedback

Survey generated feedback on possible plan priorities (96 respondents)

8 focus groups, 90 participants (designed to reflect diverse sectors)

One on one interviews with dozens of thought leaders

Follow up meetings to discuss indicators and metrics

Public comment period

Synthesized into final plan

Establishes vision, 4 goals, 16 objectives, and numerous strategies to promote action through 2020

GOALS OF THE NAIP

1. Strengthen the adult immunization infrastructure.
2. Improve access to adult vaccines.
3. Increase community demand for adult immunizations.
4. Foster innovation in adult vaccine development and vaccination-related technologies.

GOAL 1: STRENGTHEN THE ADULT IMMUNIZATION INFRASTRUCTURE

Objective 1.1: Monitor and report trends in adult vaccine-preventable disease levels and vaccination coverage data for all ACIP/CDC-recommended vaccines. In cases where there are associated Healthy People 2020 goals, measure progress toward established targets.

Objective 1.2: Enhance current vaccine safety monitoring systems and develop new methods to accurately and more rapidly assess vaccine safety and effectiveness in adult subpopulations

Objective 1.3: Continue to analyze claims filed as part of the National Vaccine Injury Compensation Program (VICP) to assess whether there was an association between vaccines that a claimant received and adverse events experienced.

GOAL 1: STRENGTHEN THE ADULT IMMUNIZATION INFRASTRUCTURE (CONT.)

Objective 1.4: Increase the use of electronic health records (EHRs) and immunization information systems (IIS) to collect and track adult immunization data.

Objective 1.5: Evaluate and advance targeted quality improvement initiatives.

Objective 1.6: Generate and disseminate evidence about the health and economic impact of adult immunization, including potential diseases averted and cost-effectiveness with the use of current vaccines.

GOAL 2: IMPROVE ACCESS TO ADULT VACCINES

Objective 2.1: Reduce financial barriers for individuals who receive recommended adult vaccines.

Objective 2.2: Assess and improve understanding of providers' financial barriers to delivering vaccinations, including stocking and administering vaccines.

Objective 2.3: Expand the adult immunization provider network.

Objective 2.4: Ensure a reliable supply of vaccines and the ability to track vaccine inventories, including during public health emergencies.

GOAL 3: INCREASE COMMUNITY DEMAND FOR ADULT IMMUNIZATIONS

Objective 3.1: Educate and encourage *individuals* to be aware of and receive recommended adult immunizations.

Objective 3.2: Educate and encourage *health care providers* to recommend and/or deliver adult vaccinations.

Objective 3.3: Educate and encourage *other groups* (e.g., community and faith-based groups, tribal organizations) to promote the importance of adult immunization.

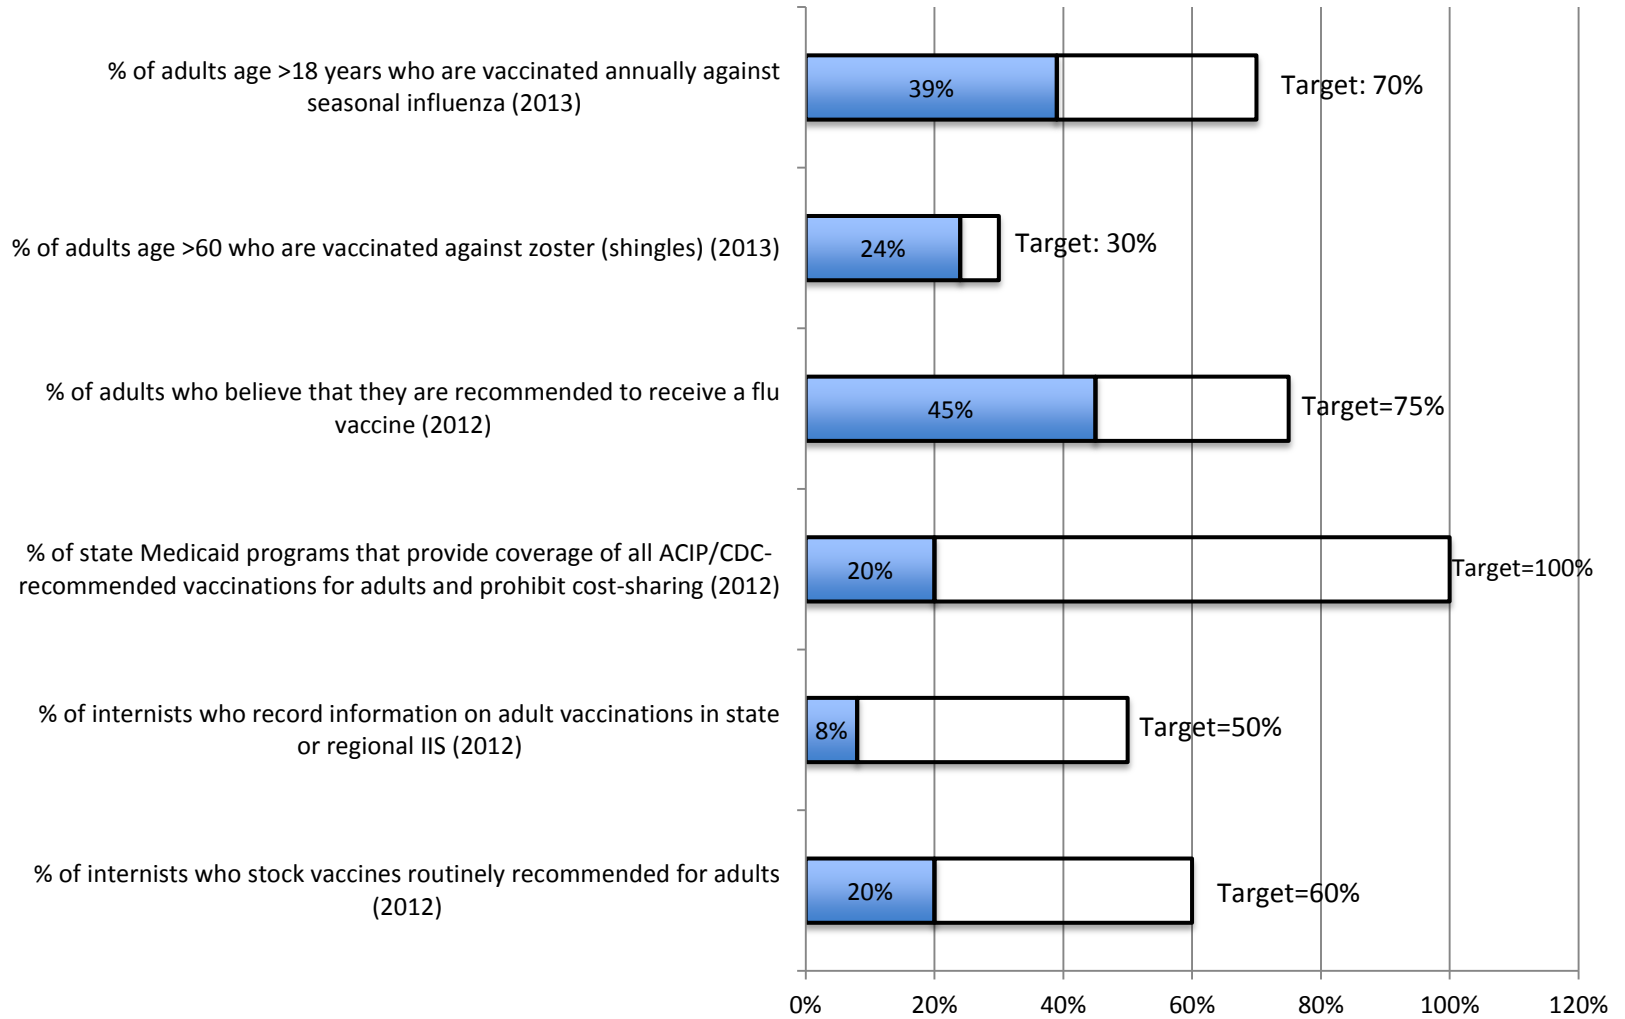

GOAL 4: FOSTER INNOVATION IN ADULT VACCINE DEVELOPMENT AND VACCINATION-RELATED TECHNOLOGIES

Objective 4.1: Develop new vaccines and improve the effectiveness of existing vaccines for adults.

Objective 4.2: Encourage new technologies to improve the distribution, storage, and delivery of adult vaccines.
