OVERVIEW OF TALKS

1. National Adult Immunization Plan (NAIP) and Implementation of the NAIP – the “priorities”
2. Preview of adult coverage estimates
3. Quality and Performance Measures – the IHS experience
4. Adult financing, costing, and payment: the “business case” for providing adult vaccinations
5. 2016 – National Adult and Influenza Immunization Summit
NATIONAL ADULT IMMUNIZATION PLAN

Angela K. Shen, ScD, MPH
CAPT, US Public Health Service
Senior Science Policy Advisor
February 3, 2016
THE NATIONAL ADULT IMMUNIZATION PLAN

...Was created to protect public health through vaccination of all adults,

...Represents the perspectives of diverse stakeholders,

...Is national in scope and aligned with other HHS priorities,

...Addresses 2012 NVAC Recommendation
DEVELOPMENT OF THE NAIP

Environmental scan
Reviewed literature from the last 10 years

Stakeholder engagement
Key stakeholders convened to provide high-level feedback
Survey generated feedback on possible plan priorities (96 respondents)
8 focus groups, 90 participants (designed to reflect diverse sectors)
One on one interviews with dozens of thought leaders
Follow up meetings to discuss indicators and metrics

Synthesized into final plan
Establishes vision, 4 goals, 16 objectives, and numerous strategies to promote action through 2020

Public comment period
THE NATIONAL VACCINE PROGRAM OFFICE
GOALS OF THE NAIP

1. Strengthen the adult immunization infrastructure.
2. Improve access to adult vaccines.
3. Increase community demand for adult immunizations.
4. Foster innovation in adult vaccine development and vaccination-related technologies.
GOAL 1: STRENGTHEN THE ADULT IMMUNIZATION INFRASTRUCTURE

Objective 1.1: Monitor and report trends in adult vaccine-preventable disease levels and vaccination coverage data for all ACIP/CDC-recommended vaccines. In cases where there are associated Healthy People 2020 goals, measure progress toward established targets.

Objective 1.2: Enhance current vaccine safety monitoring systems and develop new methods to accurately and more rapidly assess vaccine safety and effectiveness in adult subpopulations.

Objective 1.3: Continue to analyze claims filed as part of the National Vaccine Injury Compensation Program (VICP) to assess whether there was an association between vaccines that a claimant received and adverse events experienced.
GOAL 1: STRENGTHEN THE ADULT IMMUNIZATION INFRASTRUCTURE (CONT.)

**Objective 1.4:** Increase the use of electronic health records (EHRs) and immunization information systems (IIS) to collect and track adult immunization data.

**Objective 1.5:** Evaluate and advance targeted quality improvement initiatives.

**Objective 1.6:** Generate and disseminate evidence about the health and economic impact of adult immunization, including potential diseases averted and cost-effectiveness with the use of current vaccines.
GOAL 2: IMPROVE ACCESS TO ADULT VACCINES

Objective 2.1: Reduce financial barriers for individuals who receive recommended adult vaccines.

Objective 2.2: Assess and improve understanding of providers’ financial barriers to delivering vaccinations, including stocking and administering vaccines.

Objective 2.3: Expand the adult immunization provider network.

Objective 2.4: Ensure a reliable supply of vaccines and the ability to track vaccine inventories, including during public health emergencies.
GOAL 3: INCREASE COMMUNITY DEMAND FOR ADULT IMMUNIZATIONS

Objective 3.1: Educate and encourage *individuals* to be aware of and receive recommended adult immunizations.

Objective 3.2: Educate and encourage *health care providers* to recommend and/or deliver adult vaccinations.

Objective 3.3: Educate and encourage *other groups* (e.g., community and faith-based groups, tribal organizations) to promote the importance of adult immunization.
GOAL 4: FOSTER INNOVATION IN ADULT VACCINE DEVELOPMENT AND VACCINATION-RELATED TECHNOLOGIES

Objective 4.1: Develop new vaccines and improve the effectiveness of existing vaccines for adults.

Objective 4.2: Encourage new technologies to improve the distribution, storage, and delivery of adult vaccines.
% of adults age >18 years who are vaccinated annually against seasonal influenza (2013)
- 39% (Target: 70%)

% of adults age >60 who are vaccinated against zoster (shingles) (2013)
- 24% (Target: 30%)

% of adults who believe that they are recommended to receive a flu vaccine (2012)
- 45% (Target: 75%)

% of state Medicaid programs that provide coverage of all ACIP/CDC-recommended vaccinations for adults and prohibit cost-sharing (2012)
- 20% (Target: 100%)

% of internists who record information on adult vaccinations in state or regional IIS (2012)
- 8% (Target: 50%)

% of internists who stock vaccines routinely recommended for adults (2012)
- 20% (Target: 60%)

NAIP DEVELOPMENT TIMELINE

NVAC recommends HHS produce national strategic plan on adult immunization

2012

Begin stakeholder engagement

2013

First draft of plan circulated to partners

2014

Plan cleared for publication

2015

Now underway

Develop the Implementation Plan
